

Freight Business Development Portal

The screenshot shows the homepage of the Freight Business Development Portal. At the top, the browser address bar displays 'fois.indianrail.gov.in/FOISWebPortal/index.jsp'. The page header includes the date 'Fri Jun 25 12:41:36 IST 2021', navigation links like 'Skip to Main Content' and 'Skip to Navigation', and utility options for 'Screen Reader Access', 'Theme', and 'Text Size'. The main header features the 'FOIS' logo, the title 'FREIGHT OPERATIONS INFORMATION SYSTEM', and the 'CRIS' logo. A navigation menu contains links for 'HOME', 'ABOUT', 'INTERNAL USERS', 'CUSTOMERS', 'RATE CIRCULARS', 'SMART', and 'RBS', along with a search bar. Below the navigation is a 'WHAT'S NEW' section with a link to 'IMPORTANT POLICY MEASURES FOR FREIGHT'. The central banner is orange and features the Indian Railways logo, the text 'INDIAN RAILWAYS', and the main heading 'FREIGHT BUSINESS DEVELOPMENT PORTAL'. It also lists the values 'Transparency', 'Ease of Doing Business', and 'Professional Support', and includes a call to action: 'Live now... Click here to visit >'. At the bottom, there is a row of service buttons: 'FREIGHT CALCULATOR', 'FNR ENQUIRY', 'SFOORTI', 'FREIGHT BUSINESS' (marked as 'NEW'), 'E-DEMAND', and 'E-CUSTOMER'. Below these are tabs for 'GUIDELINES', 'CIRCULARS', 'FAQS', and 'INFORMATION'. The Windows taskbar at the bottom shows the search bar, system tray with weather (34°C Haze), and date (25-06-2021).

OWN YOUR TERMINAL

INVEST IN INDIAN RAILWAYS FOR A TERMINAL

Railway Freight Terminals Loading and Unloading of goods transported by rail is done at freight terminals

There are following four types of Railway Freight Terminals:

- **Railway owned Goods sheds** or railway sidings on Railway land: Indian Railways encourage private participation in Development of Goods-sheds at small/road-side stations. This policy is aimed at augmenting terminal capacity through private participation by allowing setting up of new goods-shed facilities (viz.goods wharf, loading/unloading facilities, facilities for labour (resting space with shade, drinking water, bathing facilities, etc) approach road, covered shed and other related infrastructure) and developing existing goods-sheds at a larger number of stations
- **Private Sidings** are built on private land in the manufacturing/mining plant of the company for convenience so that Railway wagons get loaded and unloaded in the premises under a special arrangement. To promote use of these sidings by other rail users, Indian Railways has allowed loading/unloading in these private sidings by any user with the permission of the private siding owner
