

IZATNAGAR DIVISION
NORTH EASTERN RAILWAY

DIVISIONAL DISASTER MANAGEMENT PLAN

YEAR 2023

ISSUED BY :
DIVISIONAL SAFETY ORGANISATION
IZATNAGAR

INDEX

S.N.	DETAIL	Page No.
1	CHAPTER-I	1
1.1	What is Railway disaster	1-2
2	CHAPTER-II	3
2.1	Preparedness & resources (Non Railway & Railway) Unit I, II, III & IV	3-4
3.	Golden tips of providing First Aid-Priority Method	5-6
3.3	Check List of Safety Items at Stations	7
4.	CHAPTER-III	8
4.1.	Immediate Action by Divisional Control Office	8
4.1.1.	Intimation of Accident-Divisional Officers	8
4.1.2	Intimation of Accident-Railway Doctors	9
4.1.3	Informing Non Railway Officials	9
4.1.4	Divisional Officers required to go to site	9-10
4.1.5	Supervisor required to go to accident site	10
4.1.6	Setting up Emergency Cells in Division	10-11
4.1.7	Duties of Additional Divisional Railway Manager	11
4.1.8	Manning of Divisional emergency cell in shift duty	12
5.	CHAPTER-IV	13
5.1	Resources available – Priority I to VI	13- 15
5.2	Various Phases of Disaster Management Phase 1 st to 4 th	15-16
5.3	Instant Action Team	17
5.4	Action to be taken at Divisional H.Q. Level	18
5.5	Concept of Controlling Section–Jurisdiction of Officer Incharge & Supervisor	18- 20
5.6	Check List of Action to be Taken – Duties of Engine Crew, Guard, TTE/Train Superintendent	20-22
5.7	Duties of Station Master at Adjoining Station	22-24
5.8	Duties of Control Staff – All Branches of Control	24-26
5.9	Function of Disaster Management Control	26
5.10	Duties of Safety Branch	26-28
5.11	Duties of Operating Branch	29
5.12	Duties of Commercial Branch	29-30
5.13	Helping Enquiry Booths at Station – Accident details to be available, Information regarding running of trains & refunds	30-32
5.14	Duties of Engineering Branch	32
5.15	Duties of Mechanical Branch – ARME Headed by Sr.DME(C&W), ART Staff	32-33
5.16	Duties of S&T Staff	33-34
5.17	Duties of Electrical Branch	34
5.18	Duties of Power/Loco Branch	34
5.19	Duties of Personal Branch	34
5.20	Duties of Security Branch	35-36
5.21	Duties of Medical Department _ Formation of two team A & B	36-38
5.22	Assistance from Neighbouring Divisions	38
5.23	Delegation of power of be exercised by Officers for Disaster Management	38-40
5.24	Disaster Management Action Plan	41-42
5.25	Deployment of Officers and Supervisors	43
5.26	Section wise chart for requisitioning of ARMVs	44

5.27	Resources of Railway ART & ARME in Izatnagar Division	44-45
5.28	Section wise chart for requisitioning of ARTs	45
5.29	Section wise details for requisitioning of ARME & ARTs	45
5.30	Location of ARTs on adjoining zone with particulars of their crane	46
5.31	Railway rescue infrastructure in Izatnagar Division	46
5.32	Standard list tool & equipment for SPART as per IR comtech	46-63
6	CHEPTER – V	64
6.1	Nomination of personnel Inspector/Welfare Inspection & their Jurisdiction	64
6.2	Section wise list of officers & supervisors of Signal & Telecom department	65
6.3	Section wise list of officers & supervisors of Power(Loco) department	66
6.4	List of Doctors of IZN division with Telephones & Mobile No.	67
6.5	Details of Pomka Team A & B	68-71
6.6	Details of 8 NDRF Battalions	72
6.7	RPF Post & Jurisdiction	73
6.8	List of RPF & GRP staff for disaster management team IZN	74
6.9	Detail of fire brigade & DOG Squad & Bomb Disposal Squad	74-75
6.10	List of station where Hammals are available	76
6.11	List of stations where coolies (Porters) are available	77
6.12	List of Govt. Railway Police post (Thana) in Izatnagar Division	78
7	CHEPTER-VI	79
7.1	Details of BSNL Telephone no. provided at Rly station of Izatnagar Division	79
7.2	Section wise location of Ice factories in the division with contact numbers	80-81
7.3	Details of name of Drivers, Address & Contact No.	82
7.4	List of Important Control Room Telephone Numbers	83
7.5	List of Important Telephone Numbers of Railway Officers	84
7.5(a)	List of TRD/Depo Incharge(SSE,JE) & Tower Wagon IZN Division	84
7.6	Reporting of Train Accident Telephonically to Railway Board	84
7.7	Important Official and residential P&T and Mobile Numbers of the desired officers of foreign Railway for use in emergency case	85-86
7.8	Telephone Number of Chief Commissioner Rily. Safety, Lucknow	86
7.9	List of section wise Medical Facilities	87-92
7.10	List of available Blood Bank in Division	92-93
7.11	List of Name & Contact No. Of light/generator suppliers	93
7.12	List of section wise details of NGOs in division	94-97
7.13	List of Bulldozers and Road crane suppliers	98099
7.14	Name of places, where Helicopter can be landed	100
7.15	Available help from Military, Ari Force in division	101
7.16	List of name of station where catering and vending services available	102
7.17	List of name with contact No. Of Print Media/Electronic Media persons	103-123
7.18	List of working contractor in Railway Izatnagar division	124-126
7.19	Telephone Numbers of High officials of railway board	126
7.20	Satellite Telephone Numbers	127
7.21	List of name with address & Contact no. – Labour supplier	127
7.22	List of name with address & Contact no. – Tent supplier	128
7.23	List of name with address & Contact no. – Water supplier	128
7.24	List of name with contact number of Civil officer of adjoining district of Disaster Management	128
7.25	List of important telephone number of Civil and Police Administration	129-130
7.26	List of mobile number of RPF/GRP/Civil Police officers in Izatnagar Division	131-134

CH-I

1. What is Railway Disaster ?

Disaster in the Railway context is a serious train accident or an untoward event of grave nature, either on the railway premises or arising out of railway activity in that area, due to natural or man-made causes, that may lead to loss of many lives and/or grievous injuries to large number of people, and/or severe disruption of traffic, necessitating large scale help for other Government/Non-Government and Private organisation.

- 1.1.2. In case of a serious accident, the administration would take a conscious decision whether the situation is to be classified as a disaster or not.
- 1.1.3. GM, AGM or CSO is the authorised officer to declare an untoward incident as a Railway Disaster. As soon as the accident is declared as a disaster, the concerned officers will be apprised of the same by the different functionaries in Divisional Control as detailed in para 4.1 of Chapter IV and all instructions as contained in this disaster management plan would automatically come into force and officers and staff of all departments would take action as laid down in this book, in addition to the provisions of accident manual and other Rule Books/Manuals in use.

1.2. Disaster involving train services :

The disaster may be due to following factors :-

Human/Equipment failures leading to : Collision, Derailment, Level crossing accidents at Manned/unmanned level crossings, Fire in train.

Natural calamities such as : Land slide, Earth Quakes, Floods and breaches, Storm/Cyclone/Tornadoes

Sabotage : Setting fire to Train/Railway installations and Railway property, Bomb blasts, placing of obstructions on track to cause disruption to traffic, tampering with railway fittings to cause accidents.

Chemical : Disaster due to chemical reactions.

- 1.3. In many cases of accidents, Railways have been criticised for poor handling of relief measures. The main reasons for criticisms have been as under :-
 - a. Late medical relief to injured passengers.
 - b. Incorrect/untimely/inadequate information regarding dead/injured passengers.
 - c. Unsatisfactory arrangements for preservation and transportation of dead bodies.
 - d. No food or delay in supply of eatables/clean water to stranded passengers and rescue workers.
 - e. Poor handling of emergency cells opened at stations.

- 1.4. This disaster management plan does not aim at suggesting measures to avoid disasters but, it clearly lays down various measures, which are to be taken by various railway officials in the post disaster situation. The aim of the disaster management plan is to effect.
- a. Minimizing disaster effects.
 - B. Saving lives.
 - c. Care & concern for the affected customers.
 - d. Proper and timely dissemination of information to public in the aftermath of disaster.

2. CHAPTER-II

2.1. Preparedness and resources :

Railways are generally self-reliant in carrying out rescue and relief operations. However mobilizing heavy casualties, occurring in remote areas, difficult terrain and/or under adverse weather condition may be necessary.

Disaster management mechanism in Railways is to be maintained at a high level of preparedness and efficiency. All resources (Men and Material including Medical, Personnel, Transport, volunteers, police and Fire services) belonging to railway and non railway both should be ensured for availability and preparedness.

Resources available in case of a major accident may be grouped with four different units, depending on the time frame within which these can be made available after an accident.

Resource Unit-I : Railway and non-railway resources available on the train and at nearby surroundings.

Resource Unit-II : Railway resources available at ARMV/ART depots and elsewhere within the division.

Resource Unit-III : Railway resources available at ARMV/ART depots and elsewhere on adjoining Zones and Division.

Resource Unit-IV : Non-railway resources available within or outside the division.

2.2. Resource Unit-I

2.2.1. On train carrying passengers following resources are available :

- a. First aid box available with Guard.
- b. First aid box available with Train Supdt. And in Pantry Car.
- c. Portable telephones, Fire extinguishers in Brake van, Locomotives and in Pantry car.
- d. Walkie-talkie with Guard and Driver.
- e. Cell Phone/Mobile communications with Passengers.
- f. Information collected by train superintendent/Travelling Ticket Examiner about
 - (i) Medical practitioners and
 - (ii) Railway officers/staff travelling on the train either on duty or on leave.
 - (iii) Passengers who volunteer their help.

2.2.2. **Non-railway resources available nearby :**

- a. Volunteers from nearby villages and towns.
- b. Transport facilities available at site or passing nearby.
- c. Tractor with trolleys from nearby villages for
 - (i) Transport and
 - (ii) Lighting up the accident site.
- d. Station staff and local railway administration should requisition held from non-railway sources for medical assistance, additional man power, rescue equipment, lighting arrangements, transport and fire fighting tools, divers (if required) etc, before railways own rescue team arrives.

2.2.3. **Railway resources available nearby :**

- a. Engineering, S&T, C&W and other departmental gangs/staff.
- b. Other resources such as Medical facilities, communication facilities etc.
- c. Families of gangmen and other staff residing in vicinity.

2.2.4. **At Adjoining stations :**

- a. Staff available at adjoining or nearby stations.
- b. Railway and non-railway resources as given in chapter VI in this DMP.

2.3. **Resource Unit-II**

- a. ARMVs/ARTs are stable at nominated stations, The location of these resources are given in Chapter IV in this DMP.
- b. Railway Medical and departmental resources.

2.4. **Resource Unit-III :**

- a. Location of ARMVs/ARTs based on adjoining Zones/Divisions is given in chapter IV with section wise chart in this DMP.
- b. Resources of men and material available on adjoining zones/Divisions.

2.5. **Resource Unit-IV :**

- a. Non railway resources available within the division given in chapter VI of these DMP.
- b. Non-Railway resources available outside the division.
- c. Air support.
- d. Transport support.

2.6. **Authority to order movement of ARMV & ART to site :**

- a. On receipt of information about serious accident involving casualties, ARMVs and ARTs shall be ordered immediately.
- b. The decision would be taken by Chief Controller (Coaching) on duty and nobody's would be required for ordering the same. In this regard provisions available in Para 6.04(a) of Accident Manual shall be considered adequately.
- c. After sounding of siren, the ARMV and ART should be run out within the stipulated target time.

3. GOLDEN TIPS OF PROVIDING FIRST AID – PRIORITY METHOD

3.1 Order of priority for dealing with and helping injured passengers should be as follows :-

- unconscious.
- bleeding excessively
- having breathing problems
- grievously injured
- in a state of shock
- having fractures
- simple injured.

3.2. For assessing and handling injuries, acronym DR ABC is to be followed.

- (i) D-Danger
Look for danger, Make sure that no further danger exists either for the patient or for the First Aider.
- (ii) R-Response :
Check for consciousness, Call by his/her name, slap, pinch and shake gently. If there is no response, then it means that the patient is unconscious.
- (iii) A-Air Way :
Clear the airway (Trachea). If patient is unconscious, then the airway may be narrowed or blocked making breathing impossible. This occurs due to several reasons. Mass food particles or foreign body in the air passage or the tongue may have sagged back and blocked the air passage.

To open the airway lift the chin forward with the fingers of one hand while pressing the forehead backwards with the other hand, now the tongue comes forward and the airway is cleared. To clear the other objects in the mouth press the Jaw, open the mouth put your fingers or a clean cloth in the mouth and clear the things. Now the air passage is clear.
- (iv) B-Breathing :
Check for breathing. Keep the back of your fingers near the nose of the patient. You can feel the warm air (or) keep your ear near the nose and look for the movement of chest, listen to the sound from the throat and feel the warm air from the nose.

(v) C-circulation :

Check the pulse. Normally we check the pulse at the wrist, however sometimes it is not felt because of severe bleeding. So it is better to check the pulse at neck (Carotid pulse).

After check DRABC, there may be two possibilities.

7.. If patient is breathing, has circulation but is unconsciousness, immediately turn him to recovery position and transport to hospital.

(b) If the patient has failure of breathing and circulation then immediately start CPR (Cardio Pulmonary resuscitation) the important life saving technique in First Aid.

To revive the lungs you have to give artificial respiration by mouth to mouth (Kiss of Life) method. Lift the chin forward and press the jaw open the mouth with one hand and close the nose with other hand keep your mouth on the casualty's mouth and blow.

To revive the heart you have to give external chest compression. The casualty should be made to lie down on a hard surface. Keep heel of the palm on the chest (Pit of stomach) of the casualty and keep the other palm over that hand and compress.

Mouth to mouth ventilation and external chest compression should be given in the ratio of 2:15. This should be continued up to the revival of life or till reaching the hospital. Once life starts, immediately turn the casualty into recovery position and transport to hospital (Recovery position or three quarter prone position means turn to one side, better to right side)

Recovery Position :

Recovery position is the safest position for unconscious patients. Normally we keep the patient in a supine position. However, in case of unconscious patients, it is a very dangerous position because the tongue can fall back and close the airway or saliva and other secretions may get into windpipe. To avoid that turn the casualty into recovery position and transport to hospital.

Sometimes, you may not be in a position to do first aid due to tense situation. In such circumstances at least turn the casualty to recovery position, which would help to save many precious lives.

3.3 **CHECK LIST OF SAFETY ITEMS AT STATIONS**

It is the responsibility of SS/SM in-charge of station to keep equipments & information complete, up dated and equipments in working condition.

1. Fire buckets: Six fire buckets must be available at each station.
Three filled with water and three with loose sand. Water buckets are to be filled with water regularly.
2. Fire extinguisher: Each station should have minimum two DCP type fire extinguishers.
3. Stretcher(s) 1 No. (Minimum)
4. First Aid box 1 No. (Minimum)
5. List of Civil authorities i.e. DM, SP, Police station and GRP post with telephone numbers.
6. List of Railway Officers/Supervisors with Telephone/Mobile Numbers (Important one)
7. List of local Hospitals and Ambulance with telephone numbers.
8. Road approach route particulars from various directions.
9. List of nearest Fire brigade with telephone numbers.
SS shall update and check all telephone numbers once in every 3 months.

4. CHAPTER-III

4.1. Immediate action by Divisional Control office :

4.1.1. Intimation of accident – Divisional officers :

- (i) In the Divisional control office, information regarding an disaster is generally received by the Section controller.
- (ii) In most cases the First Information Report also intimates the approximate number of coaches involved and rough estimate of the likely number of casualties (such as 'heavy casualties expected')
- (iii) Accidents involving a passenger carrying train where the first information says that heavy casualties (around 75) are expected, should prima-facie be treated as a disaster.
- (iv) The moment information regarding an accident involving a passenger carrying train is received in the divisional control office, the accident bell in the control room should be sounded for alerting all on duty functionaries.
- (v) After all on duty functionaries gather around the section control board they will be briefly informed about the accident.
- (vi) Each functionary will thereafter resume his position and take steps to set in motion activities required of him.
- (vii) Dy. Chief controller (Coaching) will first inform Hospital casualty. Then Dy. Chief Controller (Coaching) on duty will order ARMV/ART immediately. Nobody is authorisation would be required for ordering the same. In this regard provisions available in Para 6.04(a) of Accident Manual shall be considered adequate. Thereafter he will inform officers and supervisors as given below.
- (viii) Each departmental functionary will inform divisional officers and supervisors of his department about the accident as detailed below :-

Functionary	Officers and supervisors
Dy. Chief Controller (Coaching)	Operating & Safety, Hospital Casualty, DRM, ADRM, Medical
Electrical Control	Electrical
Power Control	Mechanical
Engineering control	Engineering, Personnel, Account
Test Room/S&T Control	S&T, Stores
Commercial control	Commercial, Public relations
Security control	RPF

- (ix) For this purpose all functionaries working in the divisional control office will have a ready list of telephone numbers (Railway BSNL and Mobile) of all officers and supervisors of their departments.
- (x) After Dy. Chief Controller (Coaching) has informed Hospital 12uxiliar, DRM, ADRM and Medical Doctors, he will then inform Dy. Chief Controller (Coaching) in HQ, Central control regarding the accident.

4.1.2. **Intimation of Accident – Railway Doctors :**

Dy. Chief Controller (coaching) will inform the Hospital emergency of Railway Hospital regarding details of the accident. Railway doctor on emergency duty shall undertake the following :-

- 7.. Note down time of receiving message.
- (ii) Inform CMS, other doctors & Para-Medical staff and instruct them to reach the ARMV immediately.
 - (iii) Collect necessary medical team in the hospital.
 - (iv) Inform CMS about movement of ARMV.
 - (v) Alert blood donors, St. John's Ambulance brigade.
 - (vi) Bare minimum medical team should remain in the hospital, rest of the doctors should be rushed to the accident site by ARME first and then by other fastest mode of transport.
 - (vii) Arrange to move emergency boxes from ARME Scale-II locations to the accident site.

4.1.3. **Informing Non-Railway Officials :**

- (i) DM, SP and CMS of the district within which the accident site falls should be informed regarding the accident by the chief controller for immediate assistance.
- (ii) ADRM will inform the following regarding the accident.
 - I.G./GRP
 - ADG/GRP
 - Divisional commissioner,
 - Home Secretary.
- (iii) In case POL rake is involved then IOC/BPC/HPC officials should also be informed.
- (iv) In case Mail Bags of RMS are involved, then Postal Officials should also be informed.
- (v) Telephone numbers of all DMs, SPs, CMSs and Divisional Commissioners are available in Divisional DM Plans.
- (vi) Telephone Number of IOC/BPC/HPC officials are also available in the Divisional DM Plans.
- (vii) Telephone number of ADG/GRP, IG/GRP, Home Secretary etc of UP, Uttaranchal are given in annexure.

4.1.4. **Divisional Officers required to go to site :**

- (i) All Divisional Officers required to go to accident site should proceed by the ARMV. They should not proceed by road.
- (ii) Road vehicles should be sent to Accident site separately. Maximum number of road vehicles should be sent to accident site from Divisional Headquarters.
- (iii) ARMV shall be despatched within 15 minutes by day and within 30 minutes by night after sounding of siren.

- (iv) DRM will proceed to the accident site. ADRM shall stay back at Divisional Headquarters for co-ordination work.
- (v) All Branch Officers except Sr. DOM should proceed to the accident site. For this purpose, officers heading different branches within the same department are referred to as Branch Officers.
- (vi) The second senior most officer of each branch should stay back at Divisional Headquarters.
- (vii) Of the remaining officers from each branch, a majority of both senior and junior scale officers should also proceed to the accident site.
- (viii) Once it has become clear that the accident is a disaster, then the 80/20 rule should be followed.
 - 7.. 80% of all officers should go to the accident site and only 20% should stay back at Headquarters.
 - (b) Similarly, 80% of all supervisory staff should go to the accident site and only 20% should stay back at Headquarters.
- (ix) Divisional DM Plans should also spell out the same thing for supervisors of each department.
- (x) Arrangements of Road vehicles to proceed to accident site, indicating alternative vehicles as well, shall be indicated in Divisional DM Plans.
- (xi) Arrangements of vehicle drivers including spare drivers shall also be notified.

4.1.5. Supervisors required to go to Accident Site :

- (i) At the divisional level 80% of all supervisors available in divisional headquarters should proceed to the accident site.
- (ii) All other supervisors available in the field at other stations should also proceed to the accident site.
- (iii) Divisional Control Office should issue a recorded control message from DRM to all Supervisors for proceeding to the accident site immediately by fastest possible means.

4.1.6. Setting up emergency cells in Divisions :

- (i) Divisional emergency cell shall be opened immediately after receipt of information of the accident at divisional control office.
- (ii) This unit will exercise control, co-ordinate and arrange supplementary assistance to the accident site.
- (iii) It shall function in a separate cubicle at Divisional Control Office provided with centralised communication network, hot line to the site and headquarters.
- (iv) Sr.DOM will be over all in charge of Divisional Emergency cell and will function as the Divisional Emergency officers for the purpose of managing relief and restoration operation from divisional level.
- (v) In case, Sr.DOM is not available, DOM/AOM (Movement) will be the Divisional Emergency officer.
- (vi) In case both officers are not available, any other officer nominated by DRM will take over charge.

- (vii) Requirements of all departments for movement of men and materials to the accident site shall be conveyed to the divisional emergency officers, who shall arrange their movement.
- (viii) Timings of 2nd and 3rd special trains to be moved from each end to the accident site, carrying backup logistic support will be conveyed to all concerned beforehand.
- (ix) Divisional Emergency cell will maintain:
 - Telephone and FAX Numbers of the accident site. These should be maintained functionary wise for each functionary available in the UCC.
 - Similarly telephone and Fax Numbers of functionaries available in CAC should also be available with the divisional emergency cell.
 - Telephone and Fax numbers of Helpline enquiry booths that would have been set up at various stations on the division.
 - E-Mail addresses of UCC, CAC, Helpline enquiry booths & Headquarter emergency cell.
 - Names and phone numbers of hospital where injured have been admitted/shifted, along with number of patients.
- (x) Divisional Emergency cell will collect updated information regarding all aspects of the accident and pass on the same either telephonically or by E-Mail to :
 - All helpline enquiry booths within the division.
 - Headquarters emergency cell.
- (xi) Divisional Emergency officer on duty shall chronologically record all information and instructions received or given in a logbook.
- (xii) If necessary, similar emergency cells will be opened at other major terminals as decided by the chief emergency officer.
- (xiii) After relief, rescue and restoration work is completed, winding up of divisional emergency cells shall be decided by DRM.

4.1.7. Duties of Additional Divisional Railway Manager :

- (i) Undertake making of announcements over local TV channel and cable network for all supervisory staff to rush to the accident site.
- (ii) Ensure that functionaries of different departments in Divisional Emergency Cell carry out duties assigned to them as per Divisional DM Plan.
- (iii) Monitor movement of assistance from other divisions/zones.
- (iv) Co-ordinate with State Govt.
- (v) Co-ordinate with Defence and Para Military authorities.
- (vi) Monitor various important media channels to keep track of media reporting. Suitable corrections/clarifications may also be issued, if required.

4.1.8. **Manning of Divisional Emergency Cell in shift duty :**

- (i) Divisional Emergency cell shall be manned round the clock by officers.
- (ii) In addition to officers of the operating department, there will be officers of engineering, mechanical, S&T, Electrical, Commercial, Medical, Security and Personnel departments in the Divisional emergency cell round the clock.
- (iii) Divisional emergency cell will be manned by Senior scale/junior scale officers of all departments in 12 hours shift duties round the clock (8.00 to 20.00 hrs day shift and 20.00 hrs to 8.00 hrs night shift).
- (iv) Senior most officer of each department who is available in the division shall be on duty in the divisional emergency cell during the day shift (8.00 hrs to 20.00 hrs.)
- (v) Senior most officer of each department shall issue a 12 hours roster for his own departments for the night shift (20.00 hrs to 8.00 hrs)
- (vi) Round the clock roster of 12 hours shift duty should cover both officers and supervisors.
- (vii) Same officers and supervisors should be repeated each day without any change or rotation for next 4-5 days. This will maintain continuity and will ensure that experience gained on the first day can be gainfully used on subsequent days.

CHAPTER- IV

5.1. RESOURCES AVAILABLE

Railways is having history of being self reliant in carrying out rescue and relief operations in case of railway accidents. But with the fast development new challenges to humanity, Railway into maintained a high lust of preparedness and alertness that also with better efficiency in terms of result oriented actions. All resources (Men, Material & Machine-3 Ms) available in the horizon of place of disaster has to be mobilised irrespective of their affiliation to Railway or non-railway setup. Resources available with railway itself are designed and provided in a manner to deal with any type of accident. But there are available at different locations of geographical territory of divisional/Zonal Railways whose mobilisation from neighbouring division., HQ and neighbouring Railways may taken time being available as far apart places and DISASTER can not wait for these resources to be mobilised from within Railways setup i.e. in house capacity only. Mobilisation for non Railway resources in case of major accidents involving heavy casualties, occurring in remote areas, difficult terrain and for under averse weather condition may be necessary. Depending upon the reaction time of these resources i.e. time frame within which these can be made available after a disaster/accident these can be grouped/priority in to different categories. These are as follows :-

7.. On board facilities available in Passenger Trains.

Priority-I Man Power.

Driver, Assistant Driver, Guard, TTE, Train supdt. AC attendant, AC Mechanic, Railway Staff travelling on the train – either on duty or on leave, Passger who volunteer their help.

Material :

- First Aid Boxes available with Guar, Train Supdt, in Pentary Car.
- Portable Telephone in brakevan with Guard and in locomotives with driver.
- Walkie-talkie with Guard and Driver
- Fire Extinguishers in brakevan, locomotive and in AC coaches.
- Cell phones/mobile communications available with driver, Assistant Driver, Guard, other Railway Officer/Staff and Passengers.

(b) Facilities available in nearby vicinity :

(i) Railway

- Staff available at adjoining stations
- Engg., S&T staff working in nearby areas
- Medical facilities available at adjoining stations
- Families of gang men and other staff residing in the vicinity and at adjoining stations.

(ii) Non-Railway

- Medical facilities available in nearby vicinity – as per details available at adjoining stations
- volunteers from nearby villages and towns
- Transport facilities available at site are passing nearby
- Tractor with Trolleys from nearby villages for :
 - ✓ Transport of injured passengers to nearby hospitals.
 - ✓ making availability of lighting arrangements
 - ✓ bringing fire-fighting tools
 - ✓ bringing rescue equipments to site
 - ✓ for transportation of any other material to site

Priority-II

Resources available within sub-division/controlling section of site of occurrence

The concept of controlling section as detailed in chapter IV page No..... is involved primarily to provide quickest possible help to injured passenger by railway administration within GOLDEN HOUR period. As the officers and supervisors posted at various places within controlling section are essentially first responders (FR) from railway side who will move swiftly to site under the guidance and direction of divisional officers and divisional emergency cell.

This group of resources comprises mainly railway officers and supervisors available within 40-50 Kms. Of site of occurrence and who can be directed to site and report there essentially within one hour of time of occurrence of accident so that they can arrange to provide medical help to all injured persons so as to minimise the loss of human life.

Priority-III

Resources available within Division.

- ✓ ARMVs/ARTs are stabled at nominated station. The location of these resources are given in chapter-IV.
- ✓ Railway medical and departmental resources.
- ✓ Non-Railway resources available within division as listed below :-

Priority-IV

Resources available in adjoining division, Zonal HQrs and adjoining Zonal Railway

- ✓ Location of ARMVs/ARTs with 140 T crane based on adjoining division/zones are given chapter-IV.

- ✓ Section wise chart of which ARMV/ARTs to be requisitioned from adjoining division/zone is given in Chapter-IV.
- ✓ All other resources available in adjoining division and 19 uxili zone are mentioned in their respective DM Plans. Copies of DM Plan of Agra/NCR, MB/NR, LJV/NER, LKO/NR is available with divisional control office.

5.2. VARIOUS PHASES OF DISASTER MANAGEMENT

Phases- I :

In the period immediately after the accident, the following action has to be taken on war footing by Railway Officials/officers.

First Responder :

- 7.. Guard, Driver, Conductor and TTEs. Etc. Must pass on the information quickly to the nearest station or to control, about the accident. Being trained in first aid, they should simultaneously render every possible medical aid to injured people.
- ii) Senior most officer travelling by the affected train, whether on duty or on leave shall take charge at site.
- iii) All Railway officers and staff available on train must report to the Guard and work as per the directions of senior most officers.
- iv) SMs of the adjoining stations must inform Control about the happening.
- v) Nearby villagers, local police will also be a first responder and will help stranded passenger.

Phase- II :

Disaster management emergency cell will immediately come in action in the leadership of ADRM with Sr.DOM and other Branch 2nd command officer will remain in control.

ADRM will coordinate with Civil authority and NDRF & Military as per requirement of the site of accident.

2nd Command officers if required at site, ADRM should sent accordingly

Instant Action Team of different department and establishing unified command

centre from where DRM will give the direction to different wing of officers.

Phase- III :

Assistance of NDM/NDRF to handle Railway related disaster

Requisitioning NDRF in time of disaster, Division has to approach Railway Board who will request NDMA to direct NDRF Battalions to proceed to site. (Vide Railway Board letter No. 2003/Safety(PM)/1/6/3 dated 09.11.2009)

Phase- IV : (Arrival of Relief Train).

Phase-II begins with the arrival of relief train. The senior most officers who reach the site first become the 'Accident charge (site)'. All staff and officers work as per the directions of the Officer in charge (site).

Site organization:

- Medical relief camp
- Security of luggage
- Clue preservation
- Relief Rescue and Restoration
- Coordination with civil & press
- Liaison with control
- Communication- STD phones, walkie-talkies
- Lighting arrangements

- Commercial - information booth, Arrangement of Food and Water, evacuation of passengers including road vehicle, payment of ex-gratia etc.

The medical team reaching the spot must comprise of adequate number of doctors and staff.

The senior most Doctor & Officer at site should have all details about dead/injured and hospitals where they have been sent.

5.3. Instant Action Team

i)	Medical	Medical Relief and transportation to hospitals
ii)	Commercial	1.Catering-food and drinking water
iii)	Commercial & RPF	Security of luggage
iv)	Operating	Liaison with Control and arranging logistics including shunting.
v)	S&T	Establishment of communication and free telephone Booths
vi)	Mechanical	Relief operations including rescue and re-railment, and preservation of clues.
vii)	Electrical	Lighting arrangement
viii)	PRO	Liaison with Media, Press & Civil administration.

Arm Bands:

Rescue team members must wear armbands and jackets. Armband for doctors should bear a red cross.

Cold cutting:

Extreme care must be exercised while tackling damaged coaches. Cold cutting equipments should be used on coaches with passengers to avoid burns to passengers by use of flame cutting.

Handling dead/Injured:

- 7.. Dead body should be handled with care and respect.
- ii) Cover dead bodies with white shrouds, which should be available in ARME.
- Iii) Expeditious issue of death certificate.
- iv) List of dead and injured must be passed on from time to time.
- v) A photographer should take colored photographs of the dead and injured.

Free food, drinking water, tea etc.:

Food and clean drinking water must be rushed from the nearest source. Free food and beverages must be supplied.

Correct picture to media:

Press and other media should be given correct picture in time by PRO.

5.4. ACTION TO BE TAKEN AT DIVISIONAL HQ LEVEL

- Opening up of special enquiry booths at originating, terminating and en route stations.
- Furnishing updated position of dead, injured and evacuated passengers.
- Phone numbers should be relayed through TV, Radio and press.
- Arrangement for issue of free railway passes for relatives.
- Make arrangement for evacuated passengers to be sent to destinations. Transport vehicles can be hired.
- In case of major disaster, DRM can requisition helicopter/Aeroplane.
- Press should be briefed properly and quickly.
- Hq/Board should be advised quickly.

Phase-V: (Handling Injured Passengers)

Phase-III mainly refers to dealing with injured passengers.

Following action must be planned-

- i) Relief trains clearing injured or stranded passengers must get overriding priority.
- ii) Road vehicles can also be arranged for stranded passengers.
- iii) List of injured, hospital-wise, should be conveyed to all concerned.
- iv) Ex-gratia payment should be arranged.

Phase-VI: (Restoration of Traffic)

Without affecting the relief operations, restoration of normal traffic should be planned and acted upon. Restoration of passenger services gives a sense of normalcy besides, providing means to relatives of victims to visit and attend to them.

5.5. CONCEPT OF CONTROLLING SECTION:

The officer in charge of nominated “Controlling station” should immediately on receiving information of an accident, reach the site with sufficient staff drawn from all departments at his stations and take all the necessary steps for rescue and relief. It should be made clear to everybody that staff of all departments must follow the direction of the officer in charge and render all help and assistance necessary for tackling the disaster. Thus nominated officers are supposed to have a readymade link of all type of resources available with all deptts. Within their nominated controlling section and even non railway resources also in order to mobilize them instantly as this group/setup is supposed to react first and hand act immediately in consultation with divisional officers 23 uxi the divisional setup/ART/ARME reaches the site. And these officers will provide first and information’s of site to concerning divisional officers after their arrival at site. The performance of this group only will give results of golden hours and will be able to save lives of many people. Nomination and jurisdiction of controlling station on IZN division is as under:

Jurisdiction of officer incharge

S.No.	Section	Nominated officer	Nominated supervisors
1.	MB-KPV	ADEN/KPV SR,DMO/KPV	SE/Pway/KPV, LI/KPV, CTI/KPV JE/Sig./KPV, JE/Pway/RHN, DCI/KPV SE/Work/KPV, SE/C&W/RMR

5.6 CHECK LIST OF ACTION TO BE TAKEN

7.. Duties of Engine Crew:

- 7.. Check that flasher light is on.
- (ii) Arrange to protect the train in accordance with G & SR 6.03.
- (iii) Convey information by quickest means to control with details as per Para 50 & 503 of accident manual.
- (iv) Ensure that the portions of the track, rails, fish plates, bolt and other fittings which appear to have been tampered with are not touched or moved by any person and closely watch them and give report to Civil and police authorities on their arrival.
- (v) To take such technical precautions as may be necessary or prescribed to render his locomotive and train safe.
- (vi) Not to give any statement to the press, unless authorized to do so.

2. Duties of Guard

- 7..** Ensure securing of vehicle by application of hand brake etc. As per rules.
- (ii) Arrange protection of adjacent line(s) and same line, as per G & SR 6.03.
 - (iii) Assess nature of accident, take action to save lives and render First Aid.
 - (iv) Call for doctors if any on the train, and seek their assistance.
 - (v) Install PCP or send information through train engine after taking all precautions or stop train trolley in either direction or send information through other means to control/Station Masters.
 - (vi) Ask for:
 - (a) Medical assistance/ART.
 - (b) Arrangements for transportation of dead/injured/stranded passengers.
 - (c) Assistance if required, for unloading wagon/parcels etc.
 - (vii) Attend to injured; arrange their transportation by non – derailed vehicles, if possible or by road or other means.
 - (viii) Post an available railway employee on the field telephone.
 - (ix) Send railway servant(s) or willing volunteers available on the train to the nearest station/ police station/ hospital/ village for seeking assistance.
 - (x) Organize group of railway men or volunteers to assist in relief operations before regular medical aid is available.
 - (xi) Astt. Guard /RPF Sainik /Staff travelling on the train if any, be utilized for rendering all possible assistance to the affected passengers. This includes carrying of injured to safe place for first aid, arrangements for drinking water and securing the luggage and articles of the passengers.
 - (xii) Preserve all clues of possible cause of accident.
 - (xiii) Render help to conductors/TTEs in identification of the injured and dead.
 - (xiv) Arrange protection of property of passengers and railway.
 - (xv) In consultation with Control check if front / rear portion of the train, not affected by accident, can be safely drawn to the adjacent station so that medical van, relief train can be received nearest to the accident site.
 - xvi) Do not leave the site of accident till permitted by competent authority.

3. Duties of TTE/Train Supdt.:

- (i) Ascertaining if any Doctor is travelling by either seeing the reservation chart or making verbal enquiries, and arrange for First-Aid to the passengers.
- (ii) Preparing lists of dead and injured. If Doctor is available, the list should be classified as under:
 - a) Dead
 - b) Grievous injury
 - c) Simple injury
- (iii) Details of the dead and injured should be obtained from the reservation chart, tickets held, (to and from) or co-passengers. Assistance of the Police travelling in the train to be also obtained for identification.
- (iv) The following details should be collected:
 - a) Tickets of the passengers travelling (to and from)
 - b) Ticket Numbers – Class
 - c) Coach Number and its position from the engine.
 - D) Address of the passengers.
 - e) Nature of injury (Simple, Grievous)
 - f) Custody of luggage and other belongings – In case of injury, this should be kept by the TTE in case of death, it should be handed over to the GRP with full details and acknowledgement obtained.
- (v) He should record evidence of passengers with full particulars – If some passengers are willing to give evidence later on, their names and address should be recorded.
- (vi) He should keep record of the number of dead and injured (simple, grievous), if they are already transported by local people to the nearest hospital before the Railway Doctor had arrived.

5.7 Duties of Station Masters at adjoining station.

- I) Conveying of information
- ii) Arrange protection of traffic by keeping all signals at ON position
- iii) Report of accident to Station Master at the other end. He should be asked to call all off duty staff his station and send them to the accident site.
- iv) Report of accident to section controller
- v) Control to be advised regarding :
 - Time and nature of accident
 - Brief description of accident
 - Adjacent lines clear or not.
 - Damage to rolling stock.
 - Damage to track in terms of telegraph posts.
 - OHE masts damaged or not, and extent of damage.
 - Approximate number of dead and injured (Grievous, simple) to be obtained from the TS/TTEs.

- vi) Following functionaries should be advised regarding the accident.
All off duty Railway Staff posted at that station.
SS of junction stations at either end.
TI/DCI
P.Way supervisors-SSE/JE etc.
TRD supervisors-SSE/JE etc.
C&W supervisors-SSE/JE etc.
S&T supervisors-SSE/JE etc.
SI/RPF, SHO/GRP.
Nearest Fire station.
- vii) Inform Civil authorities, village/town/city representatives and volunteers for possible relief assistance.
- viii) Supervisory Station Manager of the nearest Jn. Station shall proceed to accident site.
- ix) Medical Assistance
7.. Call for assistance from local doctors, St.John's Ambulance Brigade, Civil & Army Hospitals.
 - b. Arrange adequate number of First Aid boxes and stretchers.
 - c. Mobilize local medical team and send it to site to render first aid to the injured.
 - d. Quickly transport ARME Scale-II equipment to the site of the Accident.
- x) **Passenger Assistance :**
 - a. Arrange drinking water, beverages and refreshments, either from refreshment room or local sources.
 - b. Supply beverages and refreshments free of cost to stranded passengers.
 - c. Open an emergency counter and display necessary information.
 - D. Obtain reservation charts and display it.
 - e. Collect information on dead/injured and convey it whenever asked for.
 - f. Make frequent announcements about diversion, cancellation, regulation of train services.
 - g. Arrange for refund of fares as per extant rules.
- xi) **Transport assistance :**
7.. Arrange for transport from local resources, if available, for transporting injured passengers to nearest hospitals by fastest possible means.
 - b. For this purpose apart from tractor trolleys even trucks passing on the highway can be utilised.
 - c. Stranded passengers to be transported from the accident spot by arranging transshipment either by train or by hiring road vehicles.

- xii) **Security assistance :**
 - a. Advise RPF/GRP/State Police to provide security to passengers their belongings and railway property.
 - b. They should also be asked to assist in rescue and relief work.
- xiii) **Communication assistance:**
 - a. Direct passengers to PCO booths available nearby, hire cellular phones to meet the need of stranded passenger.
 - b. Issue free telegrams and make available STD phone to relatives of dead/injured.
- xiv) **Sending manpower for site**
 - a. Proceed to site of the accident by quickest means with trolleys coolies, lamps vendors and any other equipment that is considered necessary.
 - b. Till relieved by a traffic inspector or divisional officers be in charge of site and carryout rescue/relief operations.
- xv) **Preservation of clues and evidences :**
 - a. TI/SM first reaching the site shall take action to preserve clues and evidences.
 - b. Secure records related to accident in the station/cabin.
 - c. Seal slides, levers, knobs and relay room, if accident takes place within the station limit.

5.8. Duties of Control Staff

Section Controller-

- 7.. He shall advise the Dy. TNL / CTNL and note important details in diary and chart.
- (ii) He shall advise the sectional TI / PWI / CSI / CMI / AEN / Railway doctor etc. Of the section immediately.
- (iii) He shall keep loop lines of adjacent stations clear of affected section.

Dy. TNL/CTNL(Chg.)

- 7.. He shall advise CMS/Railway Emergency and Traffic Inspectors.
- (ii) He shall order Railway Emergency first after that call ARME/ART at once.
- (iii) He shall inform police officials and collector concerned, wherever required.
- (iv) He shall inform Hq. Emergency control.
- (v) He shall maintain Accident Log register in chronological order of information received on right side page and information / instruction

passed on / out on left page of the register.

Power Control :

- 7.. PNL to immediately inform DME(O&F)/ADME(O&F)/Sr. Supervisors regarding accident and arrange quick movement of SLI/LI to site.
- (ii) Arrange power and crew for ART/Medical van (on duty PNL is responsible for movement of ARME)
 - (iii) Ensure ART/ARME is turned out within scheduled time.
 - (iv) Plan for additional loco and crew in consultation with CTNL.
 - (v) Inform to the concerned shed staff to proceed to site with speedometer key and tools for Graph removal. Simultaneously inform Sr.DEME(Diesel) for deputing Breakdown Gang to site if loco is involved.
 - (vi) Obtain Bio-Data of crew involved in accident and arrange for their breath analyser test at the earliest possible.
 - (vii) Inform to HQ.
 - (viii) Plan movement of crew for stranded trains in mid section.

Commercial control :

- 7.. He shall advise all comml. Officers, supervisors and inspectors of the section & PRO.
- (ii) He shall watch the situation of the site and shall remain in close contact with the CTNL.
 - (iii) He shall watch & ensure for the licensed porters refreshments for the site.
 - (iv) He shall ensure the unloading of wagons and parcels from the rolling stock involved in the accident.

Electric control :

- 7.. He shall advise all electric officers, supervisors and inspectors of the section to reach the site.
- (ii) He shall ensure the adequate arrangement of light at the site.

C&W control :

- 7.. He shall order ARTE at once as per requirement.
- (ii) He shall ensure that ART/ARME is moved within scheduled time.
 - (iii) He shall ensure that if any material is required at site that is arranged.
 - (iv) He shall remain in close contact with the site.

S&T control :

- 7.. He shall advice all S&T officers, supervisors and inspectors of the section.
- (ii) He shall ensure that if disconnection of any signalling gear is needed that is being done.
 - (iii) He shall ensure that damage signalling gears are 3luxiliary as early as possible.

- (iv) He shall remain contact with the site restoration of through traffic.

Security control :

- 7.. Inform the DSC & receive instructions.
- (ii) Inform ASC concerned, ASC/HQ will immediately rush to the Divisional control & act as coordinator between Divisional Security Control Room & Divisional Control.
- (iii) Inform the post in whose jurisdiction the accident has taken place.
- (iv) Inform the nearest IPF/SI along-with maximum staff to attend the site at once and reach the place of occurrence by the quickest means. The hiring transport, can be done if no good vehicle is available.
- (v) IPF/HQ, Reserve. Company will deploy maximum no. Of staff to accompany the ART/ARME proceeding to the accident site.
- (vi) The IPF concerned too will rush to the spot with as many men as possible.
- (vii) Inform the Civil police control room. GRP control room, concerning DM/SP/GRP/Fire brigade/Bomb disposal squad.

5.9. **Function of Disaster Managent control :**

ADRM with Sr.DOM and 2nd command of other officer of different branches will start immediate function and will remain in close contact from site. Civil authorities/officials should be informed by ADRM. Type of held require from Civil authority at site should be narrated them. ADM Finance is the district head in case of disaster. NDRF assistance should be taken through Railway Board only.

5. 10. **Duties of Safety Branch:**

1. **Sr. DSO/ADSO**

- 7.. In case of major accident Sr. DSO/DSO will accompany ART/ARME or faster mode of transport to reach the site.
- (ii) He will inspect the site and preserve the clues for accident enquiry
- (iii) He will ensure that the measurement in the standard format is taken at the accident site.
- (iv) He will ensure that the photographs / video graphs of the site are taken.

2. **DOM/AOM(M)/AOM(G)**

- 7.. He will reach at site by ARME/ ART/ Fastest mode of transport.
- (ii) He will keep liaison with the control to ensure early clearance of front and rear portion of the accident involved train.
- (iii) He will ensure that the measurement in the standard format is taken at the accident site.

- (iv) He will ensure that proper log diaries are maintained at accident site and field telephone is manned.
- (v) He will keep liaison with the control and appraise the control regarding the progress of restoration work at site.

5.3. **SC (Traffic)**

He will assist Sr. DSO/DSO and AOM(G) in the following activities.

- 7.. He will note down diary and timings of each event in a diary at site.
- (ii) He will assist in clearing the unaffected portion of the accident involved train both in rear and front.
- (iii) He shall man the telephone at site.
- (iv) He will assist in keeping liaison with control office and any other duties given by Sr.DSO/ADSO/AOM (G).
- (v) He will take the statement of guards/ operating staff and passengers if any in connection with the accident in absence of TI.

5.4. **SC (Loco)**

- 7.. He will note down the bio-data, statement of driver and Asstt. Driver of the accident involved train and will show to Sr.DSO/ADSO.
- (ii) He will also get hold of speedometer-graph of the engine of the accident involved train jointly along with other supervisors.
- (iii) He will also take charge of engine repair book in case of derailment of locomotive.
- (iv) He will note down the bio-data particulars of the driver and Asstt. Driver of the accident involved train and also arrange breathalyzer test of the driver and Asstt. Driver if warranted.
- (v) Any other duties given by Sr. DSO/ADSO/ AOM (G).

5.5. **SC (C&W)**

- (i) He shall make thorough inspection of the accident involved coaches/wagons and assist Sr.DSO/ADSO in finding out the probable cause of the accident.
- (ii) He will ensure that the joint measurements of wagons/coaches are taken in proper Performa.
- (iii) He will take down the PRO particulars of the derailed wagon/coaches and will show to Sr.DSO/ADSO.
- (iv) He will also check up the brake power certificate and its validity of the accident involved train and also seize the same.
- (v) Any other duties assigned by Sr. DSO/ADSO/AOM (G).

5.6. **SC (P.Way)**

- 7.. He will ensure that the joint observations / measurements of the track are taken in the standard Performa as per the accident Manual.
- (ii) He will ensure that proper sketch of the accident site is being prepared and jointly signed.
 - (iii) He will inspect the site and also go through the track observations and measurements and will assist Sr. DSO/ADSO/AOM (G) in ascertaining the probable cause of the accident.
 - (iv) He will seize the gang diaries and gang chart, curve register and other related documents from the concerned PWI.
 - (v) He will note down on the spot statement of the P.Way staff working at the site if any at the time of accident.

5.7. **SC (S&T)**

- 7.. He will inspect the accident site particularly, if points and crossing & signal gears are involved and will assist Sr. DSO/ADSO/ AOM (G) in ascertaining probable cause of the accident. He will ensure that joint observations of cabin/panel are taken.
- (ii) In case of accident in station yard and on points, he will note down the gauge position of the points and all levers/push buttons in the SM rooms along with traffic inspector/SS of the station.
 - (iii) He will ensure that the communication between the site and the control is arranged at the earliest. He shall also ensure that site telephone is manned by responsible S & T staff to assistance in making calls.

5.8. **TI at site**

- 7.. He shall ensure that the joint measurements of the track, wagons/coaches, cabin, panel are taken and recorded.
- (ii) He shall ensure that speedometer graph of loco is taken out jointly and seized.
 - (iii) He shall seize all train passing record of station if warranted.
 - (iv) He will take statement of the SM on duty of the station, cabin-man and any other operating staff related with the accident.
 - (v) He will keep liaison with control and ensure reception of ARME and ART at site and also ensure that all necessary shunting required to be done at site or at station is done smoothly in the minimum time.
 - (vi) Any other duty allotted by Sr. DSO/ADSO/AOM(G) and operating officers at site.

5.11. Duties of Operating Branch:

1. Sr.DOM/DOM

- 7.. He will supervise and co-ordinate the duties given to other operating officers and supervisors.
- (ii) He shall give information about accident to CSO, CPTM on telephone.
- (iii) Timely departure of ARME/ART for the site and its proper running till reaching at site.
- (iv) In case of passenger train accident, clearance of passengers from the site by the earliest mode of transport.
- (v) Clearance of front and rear portion of accident involved trains.
- (vi) Regulation and cancellation of trains of passenger/Mail express trains.
- (vii) Providing all the assistance at site in the form of men and materials required by different departments at site by rail.

5.12 Duties of Commercial Branch:

1. Sr. DCM should proceed to site of accident along with all other Commercial Officers except DCM. DCM will be available in Divisional Control Office for providing backup support.
2. A nominated supervisor should be authorized for withdrawing sufficient money from station earnings before proceeding to site.
3. Transportation of men and material to accident site:
 - (i) As soon as the ARMV/ART siren sounds & it is declared as Disaster, 50 TTEs/TCs and 50 Coolies and licensed porters in uniform should be collected together and rushed to the accident site.
 - (ii) The on duty commercial supervisor at the station at that point of time should ensure that they proceed by the ART itself and do not get left behind. If 50 number of each is not available, then whatever numbers are available should be sent to the accident site by the ART and rest by other fastest means of transport.
 - (iii) More TTEs/TCs can be sent by the 2nd and 3rd special trains carrying back up logistic support to accident site, from each end. TTEs from the Divisional squad should also be utilised for this purpose.
 - (iv) After the first batch of staff has proceeded to the accident site in the ART the entire manpower of the commercial department should be mopped up in order to send them on the 2nd and 3rd special trains which would carry back up logistic support to the accident site, from each end. For this purpose 80% TCs/TTEs from the entire division should be sent.
 - (v) 2nd and 3rd Special trains should carry the following :
 - 2 Gas Stoves, 4 Gas Cylinders, 1000 Mineral Water Bottles, provisions for making Poories, vegetables, tea etc., would be rushed to the site. This will be augmented later if necessary. These will be arranged by the affected division and provided by catering personnel/IRCTC.

(30)

- Sufficient cooks and catering staff from departmental catering or catering contractor (Including IRCTC) would be ensured at the site for arranging tea, biscuits, packed meals like Poories and vegetables to the stranded passengers, Railways working force and other officials at site.

5.13. **Helping enquiry booths at stations :**

(a) **General**

- (i) Helpline enquiry booths within division would be opened as below :-
- Originating and destination stations of the accident involved train,
 - All junction stations within the jurisdiction of Division falling on the route of the train.
 - Divisional Headquarters.
 - Any other station as may be decided.
- (ii) All helpline enquiry booths shall have DOT telephones with STD, Railway Telephones with STD. Fax machine, photocopier and a PC with internet connection.
- (iii) Helpline enquiry booths would be manned by computer literate Sr. Supervisors on round the clock basis.
- (iv) Helpline enquiry booths should keep in touch with the Divisional Emergency cell.
- (v) Divisional Emergency cell will collect updated information regarding all aspects of the accident from the UCC and pass on the same to :
- All Helpline enquiry booths within the division.
 - Emergency cells of other division of NER
 - Headquarters emergency cell.
- (vi) Such information should be received from UCC and transmitted to all concerned. For this purpose all helpline enquiry booths should be provided with PCs with internet connection.
- (vii) Helpline enquiry booths should not contact the accident site or the UCC directly.

(b) **Accident details to be available:**

- (i) Accident details would include number of dead and injured.
- (ii) Break up of type of injuries, such as grievous, simple etc.
- (iii) Disposal of injured passengers in various hospitals.
- (iv) Names of injured passengers.
- (v) Officials in charge of Helpline Enquiry Booths would display the list of injured passengers on the notice board.

- (vi) Normally, list of injured passengers is available quickly since most injured passengers are conscious and are in a position to give details of their names, addresses etc.
- (vii) Identification of dead bodies takes much longer since either.
 - they were travelling alone, or
 - their companions are injured and are not in a position to identify them, or
 - their companions have also perished.
- (viii) Under such circumstances it is possible to identify dead bodies only when relatives come from their home town.
- (ix) This aspect of identification of dead bodies and reasons for delay should be explained to the public.
- (x) Number of dead bodies identified, and their names should be available.
- (xi) This information would continue to be updated once every 3 hrs. And would continue to be accessed for the next 4 to 5 days.

(c) **Information regarding running of trains:**

- 7.. Departure of unaffected front portion of the accident involved train, and its expected time of arrival at destination.
- (ii) Departure of unaffected rear portion of the accident involved train, its diverted route, and expected time of arrival at destination.
- (iii) Expected date and time of starting of relatives special from originating and destination stations of the accident involved train, its stoppages enroute and its expected time of arrival at intermediate stations.
- (iv) Free passes to be given to relatives of dead and injured for going to the accident site. These passes will be issued by Welfare inspector who should be drafted into Helpline Enquiry Booths.
- (v) Details of other trains that were scheduled to run on the accident affected section, but have been:
 - Delayed, Regulated, Diverted, Rescheduled, Short terminated, Cancelled
- (vi) Above information regarding running of trains would be required for initial 24 hours only. Thereafter, number of enquiries regarding train running would be very few and far between.

(d) **Refunds:**

- 7.. Booking counters at stations should be augmented for granting of refund to large number of passengers who have been unable to either complete or commence their journey as a result of the accident.
- (ii) Refund of money should be granted for trains:
 - Delayed, Regulated, Diverted, Rescheduled, Short terminated,

Cancelled

(32)

- (iii) Staff manning Refund counters should be thoroughly familiar with rules for granting of refunds under such circumstances.
- (iv) Sufficient amount of cash should be available at these Refund counters for this purpose.

5.14.. Duties of Engg. Branch:

- 7..** All Engg. Officials shall report to the Sr. Most officer at site
- (ii) Arrange divers with proper equipment for under water rescue if necessary
- (iii) Guarding and preservation of clues till Police or RPF personnel arrive at site and taken charge.
- (iv) Arrange for water supply at accident site by drawing from adjoining station if required.
- (v) Cutting equipment available with PWI and BRIs and in Workshop are moved to site for supplementing ones available in ART.
- (vi) Utilisation of bridge gangs for rescue work whenever the need arises
- (vii) Assistance to other departments in establishing communication and power supply at site.
- (viii) Assisting in 39uxiliary3939l of passengers and their luggage
- (ix) Provision of tents and other temporary shelter at the site for protection against elements of weather.

5.15. Duties of Mechanical Branch:

7.. ARME – Headed by Sr.DME(C&W)

- 7..** Sr.DME/ADME will ensure the ARME starts to site at the earliest.
Supervise HRD operations.
- (ii) DCWI will co-ordinate with other department and help to passenger for distributing available water and beverages in ARME.

2. ART STAFF

- 7..** Proceed to the site of accident. Assisting evacuating passengers if any, trapped under/inside coaches involved in accident.
- (ii) Record the details regarding brake power and other aspects of the rolling stock as per prescribed Performa.
- (iii) Should have the measurement of the rolling stock taken as per the prescribed procedure/procedure.
- (iv) Should check the fitness of the stock which are supposed to move from the accident site.

- (v) Should ensure that loco/coaches/wagons re-railed are in a fit condition to be taken from the accident site.

- (vi) Plan for efficient movement of ART, Engine, Tower wagon etc. Between site and station for quicker restoration.
- (vii) Ensure safe and efficient working of cranes, Hydraulic re-railing equipment and other rescue devices.
- (viii) Ensure that the log/diary regarding restoration at the accident site is maintained properly.

5.16. Duties of S&T STAFF:

- 7.. To proceed to site by the quickest means available.
- 2. Ensure portable telephone/emergency telephone set is provided at site.
- 3. Wherever feasible, wireless sets to be installed at accident site for communication with Divisional HQs and if possible with Rly HQs. Walkie talkie sets, megaphone hailer to be deployed as necessary.
- 4. DOT telephone with STD facility to be arranged at the temporary enquiry office opened at site and nearest location wherever possible.
- 5. Render such assistance as required by the guard in attending to the accident victims and stranded passengers.
- 6. Seal block instrument, relay rooms and note positions of levers, knobs, slides, indication etc. As the case may be.
- 7. Arrange for early restoration of 41uxiliary41 and telecom equipment as soon as such restoration is permitted.
- 8. Extending communication facilities at the site without wasting any time-
 - (i) TCI-Test Room shall inform Sr. DSTE /DSTE and the concerned ASTE about the derailment/accident. DSTE shall immediately attend the Test Room.
 - (ii) He will inform the concerned SSE (T), who in turn, will proceed to the site of accident.
 - (iii) He will inform the TCI/TCM at auto exchange PRTN for coordinating extension of CCG emergency number in the control office.
 - (iv) He will inform the concerned SE/JE in-charge of the section to proceed with DD equipment and emergency telephone with extension cable.
 - (v) He will inform to SE/JE in-charge of the adjoining section, if site of accident is away from the HQ. Of the section in-charge, for proceeding to site with necessary material for provision of communication facility.
 - (vi) TCM/Test Room shall proceed for the site of accident with INMARSE by first available means.
 - (viii) SE (Auto) BRCP will manage the staff at BRCP.

- (ix) SE in-charge of the Test Room will remain in the Test room for providing assistance required at site and also manage the staff in the Test Room.
- (x) All the staff proceeding to site should be in constant touch with Test Room and they should reach the site by earliest means to establish communication.

5.17. Duties of Electrical Branch:

7.. Power:

- 7.. Adequate lighting arrangements are provided at the site.
- (ii) DG sets for augmenting the power supply can be hired if required.
- (iii) In case of fire in coaches, any evidence of passenger should be recorded and other clues preserved. If some passenger are willing to give evidence later on, their names and addresses should also be recorded.

5.18. Duty of Power/Loco branch – On getting information regarding any accident, following action is to be-

- 7.. PNL to immediately inform SrDME(Power)/ADME(Power)/Sr. Supervisor regarding accident and arrange quick movement of CLI/LI to site.
- (ii) Arrange power and crew for ART/Medical van (on duty TCC is responsible for movement of ARME).
- (iii) Ensure ART/ARME is turned out within scheduled time.
- (iv) Plan for additional loco and crew in consultation with CTNL.
- (v) Inform to trip inspection shed staff to proceed to site with speedometer key and tools for Graph removal. Simultaneously inform Sr.DME(Diesel) for deputing Breakdown Gang to site.
- (vi) Obtain Bio-data of crew involved in accident and arrange for their breath analyzer test at the earliest possible.
- (vii) Inform to HQ.
- (viii) Plan movement of crew for stranded trains in mid section.

5.19. Duties of personnel Branch:

- 7.. Welfare Inspector should be posted round the clock in shift duty to look after the welfare of the injured persons in the hospital.
- (ii) WLI should ensure that passes are issued to the relatives and escorts of injured for visiting them in the hospitals and taking them back home.
- (iii) Sr.DPO/DPO shall depute Welfare Inspectors to assist the ADMO in taking down the name and addresses of the dead and injured and in shifting them to the hospital. Welfare Inspectors should also be deputed to the hospitals where the dead bodies or injured have been transferred.

Such information should be passed on to Sr. DCM by quickest possible means.

(35)

5.20. Duties of Security Branch:

1. Liaison with local Police at site.
2. Ensuring security of passengers belongings.
3. Security of parcel, damages goods and parcel vans.
4. To follow any instructions as given by the officer in-charge at the accident spot in connection with item 1 to 3 above.

RPF Control Room-

RPF control Room on getting the message about an accident shall act upon this information. Duty officer/Divisional Security Control room will

- 7..** Inform the DSC & receive instructions.
- (ii) Inform ASC concerned, ASC/HQ will immediately rush to the Divisional control & act as coordinator between Divisional Security Control Room & Divisional Control.
 - (iii) Inform the post in whose jurisdiction the accident has taken place.
 - (iv) Inform the nearest IPF/SI along-with maximum staff to attend the site at once and reach the place of occurrence by the quickest means. The hiring transport, can be done if no good vehicle is available.
 - (v) IPF/HQ, Reserve. Company will deploy maximum no. Of staff to accompany the ART/ARME proceeding to the accident site.
 - (vi) The IPF concerned too will rush to the spot with as many men as possible.
 - (vii) Inform the Civil police control room. GRP control room, concerning DM/SP/GRP/Fire brigade/Bomb disposal squad.
 - (viii) The RPF staff should proceed to the place of occurrence with the following items.

Flash light torches	-Atleast 4 no.
Nylon ropes	- 400 mtr.)
Walkie – Talkie sets	- 4 nos.
Tents and Ground sheets	
Wireless set	- One
First Aid kit,	
Stretchers,	
Dragon lights,	
Loud hailers,	
Cameras,	
Snuffer dog squad	

Telephone numbers of the above should be kept in readiness and updated by the Divisional Security Control Room.

Action at the scene of incident-

The senior most RPF Officer available at site scene of incident immediately start the following action:

- 7.. Segregate the area of incident by establishing temporary barriers by use of nylon ropes or any other makeshift device available at the scene. It should be ensured that the on-lookers and spectators do not enter the affected area to disturb the scene or hamper the rescue operations.
- (ii) Baggage of passengers should be isolated and protected and consigned goods should be taken care of till they are handed over to claimants or taken over by railway authorities.
 - (iii) RPF personnel should respond to any call for assistance to rescue victims and transport them to the nearest hospital. A record of casualties sent to hospitals should be maintained.
 - (iv) Hourly Stirrups will be sent by the officer at the scene of incident to the Divisional/Zonal Control Room giving the latest position.
 - (v) A temporary RPF ASSISTANCE POST (shed or tent) with proper Board should be established at a conspicuous location so that people needing help could approach the RPF. If the operation continues for a longer period, effort should be made to install a temporary telephone connection through the Railway Telecom Department, so that the information is passed on quickly. A Log Book should be opened and minute progress of action by RPF on the lines indicated above, recorded.
 - (vi) The senior most officers available at the scene of incident will also ensure proper documentation about the number of persons injured or dead, giving their identity and addresses, if available. In case the friends or relatives of the injured/deceased make any enquiries they should be properly guided.

Reinforcement-

Efforts will be made to get the reinforcement from the neighbouring posts/outposts, Reserve line, Divisional Headquarters or Zonal Reserve. In case nay RPSF battalion or company is located in the vicinity, men can be requisitioned from there for dealing with such emergent situations till additional force is available from other sources.

5.21. Medical Department

: A. Formation of two teams:

- 7.. On receipt of information regarding the accident where casualties are expected, the doctor on emergency duty in the hospital casualties would inform all other doctors and paramedical staff concerned.
- (ii) Two teams of doctors and paramedical staff would be formed, Team 'A' and Team 'B'.
 - (iii) Team 'A'- headed by CMS in-charge will rush to the accident site immediately by ARMV along with 8-10 doctors and 15-20 paramedics.
 - (iv) Team 'B'- headed by the senior most doctor amongst them will stay back

at the divisional hospital and perform duties as given below.

- (v) In case the accident site is far away from divisional hqtrs, then injured passengers are unlikely to be brought back to the divisional hospital for treatment.
- (vi) In that case, only bare minimum number of doctors should be left behind for manning Team 'B' and most of the available doctors should be rushed to accident site as part of Team 'A'.

B. Duties of Team "A"

These are listed in detail in Chapter ----- under the heading 'Site Management Plan-II;

C. Duties of Team 'B' :

- 7.. Team 'B' will establish an Emergency cell in the Casualty Unit of Railway Hospital.
- (ii) Contact adjoining divisions and organize movement of 2 more ARMVs to accident site, on from each en, as detailed in Chapter -----, Section (A4)
- (iii) Contact local hospitals (Railway/Govt./Private) near the accident site to and ask them to rush their road ambulances along with necessary medical teams to the accident site immediately.
- (iv) Contact local hospitals (Railway/Govt./Private) near the accident site to keep them selves in readiness to receive and provide medical treatment to injured passengers.
- (v) Arrange to send to following in the 2nd and 3rd Special trains carrying backup logistic support to the accident site, from each end;
 - as many more medical teams as possible,
 - adequate number of Safai walas other health workers,
 - members of St.John Ambulance Brigade, Scouts and Civil Defence personnel.
- (vi) Co-ordinate with CMS of adjoining Division/Zones and ask them to send their medical teams to the accident site.
- (vii) These medical teams should be sent to the accident site by train/road or combination of train-cum-road, as feasible. In case suitable Railway vehicles are not available, taxis should be hired for this purpose.
- (viii) Adequate number of following items should be arranged and sent to accident site for the purpose of handling dead bodies.
 - Shrouds.
 - Polythene covers for dead bodies.
 - Wooden Coffins.
 - Dry ice.

- (ix) One doctor will be available in Divisional Emergency Cell for maintaining liaison with UCC and the medical team at the accident site. Requirement of medicines required either at the accident site or in various hospitals where patients have been admitted should be noted, procured and sent as required.
- (x) Prepare Railway Hospital to receive and provide treatment to injured passengers, as and when they are brought back from accident site.
- (xi) Arrange to send anti snake venom 4 vials and other items in cold chain carrier.

5.22. **ASSISTANCE FROM NEIGHBOURING DIVISIONS**

(High Level Committee On Disaster Management: Recommendation No. 21)

Whenever number of injuries is estimated to go beyond 50, assistance must be sought for from adjoining Divisions. As a rough thumb rule, the scale of such outside assistance required would be from one Division for every 50 additional injuries. However, it may be noted that the Recommendations of High Level Committee on Disaster Management suggest only a rough thumb rule and it is upto the discretion of the GMs and DRMs of the Zonal Railways/Division to call for additional help based on their assessment of the magnitude of the disaster and the Geographical Location/conditions of the site.

5.23. **DELEGATION OF POWER OF BE EXERCISED BY OFFICERS FOR DISASTER MANAGEMENT:**

Sl	Reference to code/rule Order	Nature of power	DRMs	Remarks
1	Para No. 30 of High level Committee's Report on Disaster Management over IR vide MM/RB's DO No. 2002/Safety/1/6/4 dt 06.5.03	Hiring of Vehicles for rescue & relief operations	DRM -full power	DRM can hire vehicles in care of accident with injuries/casualty. Finance concurrence is necessary. It may be taken on post facto basis.
2	Para No. 31 of High level Committee's Report on Disaster Management over IR vide MM/RB's DO No. 2002/Safety/1/6/4 dt 06.5.03	Power for procurement of additional life saving drugs from the market by Medical Officers	DRM Rs. 25,000 per day	Money can be withdrawn from station earnings. Finance concurrence is necessary. It may be taken as post facto basis.

3	Para No. 34 of High level Committee's Report on Disaster Management over IR vide MM/RB's DO No. 2002/Safety/1/6/4 dt 06.5.03	Withdrawal of money from station earnings		As per Commercial Manual Gazetted Officer has this power. Finance concurrence is necessary. It may be taken as post facto basis. Vouchers have to be submitted within 30 days.
4	Para No. 35 of High level Committee's Report on Disaster Management over IR vide MM/RB's DO No. 2002/Safety/1/6/4 dt 06.5.03	Quicker rescue operations: 1. Temporary shelds/shelter. 2. Hiring of cots and bedding. 3. Hiring/ purchasing of plastic. 4. Purchase of Ice & Drinking water. 5. Any other related emergent relief jobs sanction personally DRM/ADRM/ site in charge.	DRM Rs.20,000/- per day	Money can be withdrawn from Accounts and Cash office through Pay Order with DRM's sanction for accident and restoration involving casualty of serious nature. Accountal should be submitted within a month. Finance concurrence is necessary. It may be taken as post facto basis.
5	Para No. 38 of High level Committee's Report on Disaster Management over IR vide MM/RB's DO No. 2002/Safety/1/6/4 dt 06.5.03	Standing Spot purchase Committee for ART/ARME to avoid any deficiency in keeping the ART/ARMV/ Crane equipment in good fettle.	Spot purchase Committee: DME, DMO, DFM/ADFM. Addl. Member Sr.DEE, Mechanical Officer for ART and Medical Officer for ARMV. Spot purchase committee.	Such decision of spot purchase committee is to be taken by DRM on the basis of necessity and should be upto 10 lakhs. Members of spot purchase committee at Divisional level can be changed in extreme cases, if necessary be DRM. (Finance concurrence is not necessary)
6	Para No. 41 & 42 of High level Committee's Report on Disaster	Special cash Imprest for ART/ARMV/BD	Sr.DME/DME (ART-incharge) upto Rs. 25000/- each.	
	Management over IR vide MM/RB's DO No. 2002/Safety/1/6/4 dt 06.5.03		Sr.DMO/DMO (ARMV-In-charge) Rs. 25000 each	

7	Para No. 43 of High level Committee's Report on Disaster Management over IR vide MM/RB's DO No. 2002/Safety/1/6/4 dt 06.5.03	Satellite Phone, One ISD connection at each Zonal HQ Control/Divisional Control and specific. BSNL telephone no. For Railway accident information	DRM's have been given the power to provide BSNL phone to all stations where BSNL phone does not exists.	
8	Para No. 44 of High level Committee's Report on Disaster Management over IR vide MM/RB's DO No. 2002/Safety/1/6/4 dt 06.5.03	Powers to hire Cell Phones	All Station Master have been given power to hire Cell Phones.	Authority: RB letter No. 2002/Tele TN/1 dt 12.5.2003
9	Requisition of Helicopter/Aeroplane at the time of severe accident for rescue operation expeditiously	Empowering DRM's to requisition. Helicopter/ Aeroplane at the time of severe accident	All DRMs	Authority: RB letter No. 2002/Safety/1/6/6 dt 13.6.2004
10	Para No. 32 of High level Committee's Report on Disaster Management over IR vide MM/RB's DO No. 2002/Safety/1/6/4 dt 06.5.03	Power for making on the spot payment to private Hospitals for Treatment of injured in a Railway accident	MS or any senior doctor in charge of Medical Team for making on the spot payment to private Hospitals	
11	Para No. 33 of High level Committee's Report on Disaster Management over IR vide MM/RB's DO No. 2002/Safety/1/6/4 dt 06.5.03	Requisition Medical assistance for the Civil side- (for requisitioning the medical assistance in case of a disaster happening under his jurisdiction)	1.DRM Rs. 10000/- per day. 2.CMS/MS – Rs. 5000/- per day	

5.24. **DISASTER MANAGEMENT – ACTION****PLAN: Department – wise**

Activity	Action
<u>Operating Department</u> 1.Reporting of Accident: (a)(i)Guard: immediately after an accident to a train (ii)Engine Crew after an accident to a train (b)Station Manager of both sides of the affected section and controlling Station Manager – immediately after getting the information. (c)Section Controller: On getting the information (d)Chief Controller/Dy. Controller: On getting information from Section Controller (e)Officer-In Charge of Control Office (f)Head Quarter Emergency Control	Act as per rule 6.02(2) of Accident Manual Act as per rule 6.02(3) of Accident Manual Act as per rule 6.02(1) of Accident Manual Act as per rule 6.04 of Accident Manual Act as per rule 6.04 of Accident Manual Act as per rule 6.04 of Accident Manual Act as per rule 6.07 of Accident Manual
<u>Accident Manager:</u> Senior most Railway personnel present at the site of the accident shall be designated as Accident Manager	Act as per rule 6.05 of Accident Manual
<u>Relief Operation:</u> <u>Commercial Department:</u>	Act as per rule 6.03 (d) of Accident Manual
<u>Mechanical Department:</u>	Act as per rule 6.03 (a) of Accident Manual
<u>Medical Department:</u>	Act as per rule 6.03 (g) of Accident Manual
<u>Operating Department:</u>	Act as per rule 6.03 (c) of Accident Manual
<u>Security Department:</u>	Act as per rule 6.03 (f) of Accident Manual
<u>Engineering Department:</u>	Act as per rule 6.03 (b) of Accident Manual
<u>Signal & Telecommunication Department:</u>	Act as per rule 6.03 (e) of Accident Manual

<u>Officer or Sr. Subordinate first reaching at the site of Accident</u>	Act as per rule 6.02 (4) of Accident Manual
<u>O.C. site at site of Accident</u>	Act as per rule 6.05 of Accident Manual
<u>O.C. Division</u>	Act as per rule 6.06 of Accident Manual
<u>Media Management at site</u> Check list of the officers and supervisors	Accident Manager shall be the Chief Spokesman at site (A) First Officer reaching the site of accident- (i) He will ensure protection to the line/lines (ii) Attention to the injured should be on top priority. (iii) Sufficient number of First Aid Box in train and from the stations shall be arranged for rendering relief to the injured. (iv) He will take steps for preservation of clues indicating cause of accident. (B) Check list for senior most Officer At site- at the site of the accident shall be designated as Site Manager and will be as per Accident Manual Para 6.05
<u>In case of sabotage or Train Wrecking</u> Guard, Engine Crew and other Railway staff Engineering Supervisors Officers and other supervisory staff Security Officials	Act as per rule 7.01 of Accident Manual Act as per rule 7.03 of Accident Manual Act as per rule 7.04, 7.09 of Accident Manual Act as per rule 7.05 of Accident Manual
<u>In case of fire in train</u>	Act as per rule 6.08, 6.13, 6.16 of Accident Manual
<u>In case of Chemical fire in train</u>	Act as per rule 6.14 of Accident Manual
<u>In case of Explosion on track or train</u>	Act as per rule 6.09 of Accident Manual

5.25 Deployment of Officers and Supervisors

DRM will proceed to the Accident site. ADRM shall stay at Divisional Headquarters for co-ordination work.

5.32. STANDARD LIST TOOL & EQUIPMENTS FOR SPART AS PER IR CAMTECH/GWL/MECH/ART/1.0/DEC-2015

S. No.	Description Of Items	Quantity	Available
	CATEGORY NO.1		
	Illumination : Electrical Equipments		
1.	Diesel driven 125 KVA capacity fixed generator complete with switchboard and accessories	02 Nos.	02 Nos.
2.	Portable Generator set 2.1 KVA on anti vibration mounts 230/250 V with integral switch spare spark plug & its spanners	06 Nos.	06 Nos.
3.	Main cable fixing from DG set to terminal board, 3 core cable iu sq.mm PVC insulated	100 Mtrs.	100 Mtrs.
4.	Tool Kit for maintenance of portable generator set as per make of Generator set	02 Set	02 Set
5.	Portable switch board with 4 water proof industrial sockets each capable taking 500 watt load and 2 mtrs 15 amps capacity PVC insulated copper leads with plug at each end	04 Nos.	04 Nos.
6.	Telescopic Stand flood light 1.8/2.5 meter high	08 Nos.	08 Nos.
7.	500 Watt Halogen lamp with water proof fitting, 200 meter 15 amps capacity lead with plug on one end and suitable arrangement for keeping cable	06 Nos.	06 Nos.
8.	250 Watt metal halide lamps with Water proof fitting, 200 meter 15 amps capacity lead with plug on one end and Suitable 50 auxiliary 5050 for keeping cable	06 Nos.	06 Nos.
9.	Hand lamp with electrical cable	05 Nos.	05 Nos.
10.	Insulation tape ¾"	10 Nos.	10 Nos.
11.	oil measuring can, set consisting of (200 ml, 500 ml, 1 liter, 2 liters & 5 liters)	01 Set	01 Set
12.	Kerosene Oil	25 Liters	25 Liters
13.	Diesel oil in 200 Liters drum	As Per Requirement	NIL
14.	Petrol	02 Liters	02 Liters
15.	Tool set complete with cutting pliers, hammers, screw drivers, knife etc	01 Set	01 Set
16.	Earthing Rod for earthing OHE	02 Nos.	02 Nos.
17.	Aluminium telescopic ladder	01 No.	01 No.
18.	Lubricating oil (For DG sets)	20 Liters	20 Liters
19.	Battery Charger 230 volts/110 volts DC, 60 Amps	02 Nos.	02 Nos.
	CATEGORY NO. 2		
	Illumination: Other than Electrical		
1.	Emergency inflatable lighting towers with light source 4.5 meters high fitted with 400 watt metal halide lamp to illuminate an area of 10000 sq.meters with 3.5 BHP engine and alternator 1.2 KVA 230 volts of weight not exceeding 45 Kgs	02 Nos.	02 Nos.
2.	Spare tower cloth special fabric cylindrical shape	01 No.	01 No.
3.	Spare blower	02 Nos.	05 Nos.
4.	Tool kit with 2 spare Halide lamps for inflatable lighting towers	02 Nos.	02 Nos.
5.	LED lantern	06 Nos.	06 Nos.
6.	Plastic Body LED torches	10 No.	10 No.
7.	3- Cell torches	10 No.	10 No.
8.	Spare Bulb for 3 cell torches	10 Nos.	10 Nos.
9.	Dry Cells	36 Nos.	40 Nos.
10.	Search light Chargeable	04 Nos.	04 Nos.

	<u>CATEGORY NO.3</u>		
	<u>Oxy-Fuel Cutting Equipments</u>		
1.	Petrol Cane	01 Nos.	01 Nos.
2.	Cylinder oxygen {150 Cu.feet}	04 Nos.	04 Nos.
3.	Cylinder Acetylene (150 Cu.feet)	02 Nos.	02 Nos.
4.	Cutting torch with Hoses-Nozzles and accessories with back fire arrestor, pipe blow CR and Ch type and Nozzle cutogen 1/16" and 3/16"	02 Sets	02 Sets
5.	Spare nozzle 1/16" and 3/16"	02 each	02 each
6.	Pressure gauge Oxygen (Double type)	02 Nos.	02 Nos.
7.	Pressure gauge Acetylene (Double type)	02 Nos.	02 Nos.
8.	Safety Google for welder	02 Pairs	02 Pairs
09.	Gloves and leg guards of levlar heat resistant	12 Pairs	12 Pairs
10.	Leather Apron for Welder	02 Nos.	02 Nos.
11.	Tool set for maintenance	01 Set	01 Set
12.	Plazma cutting equipments (Complete set)	01 Set	01 Set
	<u>CATEGORY NO.4</u>		
	<u>Rescue and Relief Equipments-</u>		
1.	Hydraulic Rescue Device (Cold cutting equipment) with spare power pack	01 Set	01 Set
2.	Spare cutter blades	01 Set	01 Set
3.	Spare tips for spreader	01 Set	01 Set
4.	Hydraulic hoses (Spare set for replacement)	01 each	01 each
5.	Hydraulic oil with container for HRD	25 Liters	25 Liters
6.	Portable set of electrically operated cutting tools Comprising or Trepanner, Bar Cutter, Channel cutter and shell shearer for relief and rescue of trapped passengers	01 Set	01 Set
7.	Hydraulic Cutter Make-Holmatro	01 Set	01 Set
8.	Nose Plier, Electrician plier 200 mm long and outer circlip plier	01 each	01 each
9.	Screw spanners 12"	01 No.	01 No.
10.	Tool kit for HRD maintenance	01 Set	01 Set
11.	HALMATRO CUTTER	01 Set	01 Set
12.	Petrol	25 Liters	25 Liters
13.	Diesel oil	200 Liters	200 Liters
14.	Screw drivers 6" x 12"	02 Nos. Each	02 Nos.
	<u>CATEGORY NO.5</u>		
	<u>Hydraulic Re-railing Eguipmenis</u>		
1.	Hydraulic Re-railing equipment set (complete)-Bimco Make	01 Set	01 Set
2.	Spare power pack and control table and roller carriage with traversing jack for Hydraulic Re-railing equipment	01 each	01 Set receive but not commissing
3.	Hydraulic oil for LUCAS/MFD RE- railing equipment with container	20Liters	20 Liters
4.	Journal Jack similar to Duff Norton no. 111-C2 or BEMCO Model-15-J-10 capacity minimum 15 Te, Height 10", Lift 5"	02 Nos.	02 Nos.

	<u>CATEGORY NO.6</u>		
	<u>Lifting Appliances-</u>		
1.	Inflatable Air bags	02 Nos.	02 Nos.
2.	Hydraulic hand operated Jack 20 ton capacity closed height 250 mm, lift 150 mm	02 Nos.	02 Nos.
3.	Hydraulic hand operated Jack 30 ton capacity closed height 285 mm, lift 150 mm	02 Nos.	02 Nos.
4.	Jack operating handle	04 Nos.	04 Nos.
5.	Spare Hydraulic oil for jacks	05 Liters	05 Liters
	<u>CATEGORY NO.7</u>		
	<u>Other Mechanical Equipments -</u>		
1.	Universal Pulling& Lifting machine (TRIFOR SAMSON MAJOR)	02 Nos.	02 Nos.
	1) 3.2 Ton capacity for lifting		
	2) 5.2 Ton capacity for pulling		
2.	Block 52uxiliary5252I pulley block with chain 3 ton capacity	01 No.	01 No.
3.	Saw hand 20"	01 No.	01 No.
4.	Power chain saw (Electrically operated)	01 No.	01 No.
5.	Trolley for seized roller bearing wheels of Loco, Coach & wagons (wheel skate)	01 Set	01 Set
6.	Rail claw for maintaining gauge	02 Nos.	02 Nos.
7.	4 Wheeled hand push trolley	01 No.	01 No.
	<u>CATEGORY NO.8</u>		
	<u>Tools And Accessories</u>		
1.	Bench Vice 150 mm	01 No.	01 No.
2.	Hacksaw 305 mm to 407 mm adjustable	01 No.	01 No.
3.	Hacksaw blade 300x 12.5x1.00 mm or 350x2x1.6 mm	06 Nos.	06 Nos.
4.	Pick Axes -6 Kg	03 Nos.	03 Nos.
5.	Axes Falling	03 Nos.	03 Nos.
6.	Hand hammer ball pane 600gms	05 Nos.	05 Nos.
7.	Sledge hammer 3.2 Kg	04 Nos.	04 Nos.
8.	Steel pin punches 3 mm, 6 mm, 10 mm	06 Nos.	06 Nos.
9.	Centre Punch	01 No.	01 No.
10.	Chiesel cross cut	06 Nos.	06 Nos.
11.	Wire punch 1" dia	04 Nos.	04 Nos.
12.	Chisel rod flat 1" dia x 2'-6" long	04 Nos.	04 Nos.
13.	Bar Tommy 7/8" x 2'-6" long	04 Nos.	04 Nos.
14.	File flat bastard (400mm long)	01 No.	01 No.
15.	File 20 mm round bastard 400 mm long	01 No.	01 No.
16.	File 20 mm square bastard 400 mm long	01 No.	01 No.
17.	File half round bastard 400 mm long	01 No.	01 No.
18.	Plastic Bucket cap. 10 Ltrs.	04 No.	04 No.
19.	GI Bucket Cap. 15 Ltrs.	04 No.	04 No.
20.	Goggle made from heat resistant plastic material	04 Pairs	04 Pairs
21.	Spanner Box 10mm,19mm,24mm,27mm,30mm,32mm,40mm	01 Set each	01 Set each
22.	Spanner double ended 8x10,13x17mm, 19x22,24x27mm, 30x32 mm, 36x41mm	02 No. Each	02 No. Each
23.	Shovel round nose T 16 Kg 685mm long handle	06 No.	06 No.
24.	Navghan (singada)	02 No.	02 No.
25.	Beaters with handle	03 No.	03 No.
26.	Phawrah country	03 No.	03 No.
27.	Tongs of sorts 455mm	04 No.	04 No.
28.	Tongs of sorts 610mm	04 No.	04 No.

29.	Calipers 6" outside	01 No.	01 No.
30.	Calipers 6" inside	01 No.	01 No.
31.	Measuring steel tape 100 ft (30mts) (16mm Width)	01 No.	01 No.
32.	Spring loaded measuring guage (Track and Rolling stock)	01 Set	01 Set
33.	Light weight synthetic pre-fabricated water proof tent for Mechanical equipments	01 No.	01 No.
<u>CATEGORY NO.9</u>			
<u>General Store</u>			
1.	Bolt MS Hex head of different sizes	10 Kg.	10 Kg.
2.	Nuts MS Hex of difference sizes	05 Kg.	05 Kg.
3.	Handle wooden/bamboo for sledge hammer 36" long	02 No.	02 No.
4.	Handle wooden/bamboo for sledge hammer 16" long	02 No.	02 No.
5.	Rope Nylon (one bundle of 12mm dia)	100 mtrs.	100 mtrs.
6.	Barrier tape	200 mtrs.	200 mtrs.
7.	Pad lock (Godrej make with duplicate keys)	10 No.	10 No.
8.	Hand umbrellas water proof and electric shock proof	20 No.	20 No.
9.	Rain coat two pieces	30 No.	30 No.
10.	Oil measuring cans conical pouring type 1) 1 lit.cap. 2) 2 lit.cap.3) 5 lit.cap.& 10 lit.cap	01 No. Of each	01 No. Of each
11.	Lamp hand signal (Tri colour)	02 No.	02 No.
12.	Fog signals (Detonators)	20 No.	20 No.
13.	Fusee signals	02 No.	02 No.
14.	Flag hand signal (green) 45x10 cms	04 No.	04 No.
15.	Flag hand signal (Red) 45x10 cms	04 No.	04 No.
16.	Board Last vehicle (LV)	01 No.	01 No.
17.	Gum Boots (Free size)	30 Pairs	30 Pairs
18.	Heavy duty safety shoes	30 Pairs	30 Pairs
19.	Flag Banner (Red) with track poles	02 No.	02 No.
20.	Alluminium ladder 6 ft. Long	01 No.	01 No.
21.	Self supporting Aluminium ladder 5'&10'	01 each	01 each
22.	Telescopic Aluminium ladder 6/8 Meter & 11 Mtr.	01 each	01 each
23.	Helmet (Heat and chemical resistant)	30 No.	30 No.
24.	Rope Manila 1" dia	50 ft	50 ft
25.	Plastic moulded chairs	20 No.	20 No.
26.	Folding table 115x74x71 cm	01 No.	01 No.
27.	LPG connection with spare gas cylinder	01 Set	01 Set
28.	Gas lighter	02 No.	02 No.
29.	Safety match boxes	02 Box	02 Box
30.	Paper plates	300 No.	300 No.
31.	Paper plates (Thermocol)	300 No.	300 No.
32.	Tea spoon (S/S)	12 No.	12 No.
33.	Stainless Steel Bhagona with cover, Medium Size	02 No.	02 No.
34.	Stainless Steel Kettle 2 Ltrs. & 7 1/2 Ltr	01 each	01 each
35.	Tea Strainer	06 No.	06 No.
36.	Tea Cup & Saucers	12 No.	12 No.
37.	Desert spoon	06 No.	06 No.
38.	Biscuits	10 Kg.	10 Kg.
39.	Tea leaf	01 Kg.	01 Kg.
40.	Milk Powder	05 Kg.	05 Kg.
41.	Coffee	½ Kg.	½ Kg.

42.	Sugar	10 Kg.	10 Kg.
43.	Steel container of sufficient capacity for keeping Food & Raw material	04 No.	04 No.
44.	Tea Thermus Steel(SS) 20/10 Ltr. Cap.	02 No.	02 No.
45.	Water Container (SS) with cover 50 Ltr. Cap.	01 No.	01 No.
46.	Steel Glass	12 No.	12 No.
47.	Stainless Steel Jug (Cap. 2' Ltrs)	02 No.	02 No.
48.	Thermus 1 Ltr. Cap. (for Tea)	02 No.	02 No.
49.	Duster (Khadi cloth)	12 No.	12 No.
50.	Khadi cloth	05 Mtr.	05 Mtr.
51.	Soap bar	04 No.	04 No.
52.	Soap Toilet	04 No.	04 No.
53.	Soap dish	02 No.	02 No.
54.	Aqua Guard for water filtration	01 No.	01 No.
55.	Cotton Darri size 9'x12'	06 No.	06 No.
56.	Electric operated drill machine 230V with extension cable 50M upto ½"cap.with10 Nos.10mm spare drill bit	01 No.	01 No.
57.	Portable Angle grinder similar to Model Bosch GWS-20-180 2000W with 20Nos. Spare grihding wheel	02 No.	02 No.
58.	Garden Umbrella with stand	02 No.	02 No.
59.	Charging facility for lap top Computer	As per Rqmt	As per Rqmt
60.	High visibility jackets (Red cross on back ground)	30 No.	30 No.
61.	Wrist band with serially numbered plastic tokens (1to100) with taps	100 No.	100 No.
62.	Respiratory Mask	02 Units	02 Units
63.	Goggles	06 Sets	06 Sets
64.	Digital Video & still camera with 5-6 floppy disc1 each	01 each	01 each
65.	Almirah with safe locker for keeping valuable items	01 No.	01 No.
66.	Inflatable tent	01 No.	01 No.
67.	Kerosene oil stove 5 Lts.cap	01 No.	01 No.
68.	Portable rail trolley	01 No.	01 No.
69.	Staff uniform-Dark brown pant& light blue shirt	01 pair/person	01 pair/person
70.	Stainless stellpalta	01 No.	01 No.
71.	Ghamela with handle (Kadai) i.e. pan with handles 16"dia,6" deep	01 No.	01 No.
72.	Pressure cooker 10 Ltrs. Capacity	01 No.	01 No.
73.	Compartment thalies steel 15"to18"dia	25 No.	25 No.
74.	Kotries stainless steel 3" apprix	25 No.	25 No.
75.	Parat stainless steel	02 No.	02 No.
76.	Wooden Board with roller for pastry	01 No.	01 No.
77.	Puri Machine	01 No.	01 No.
78.	Jhara for puri	01 No.	01 No.
79.	Iron Tawa 12" dia	01 No.	01 No.
80.	Mixture Grinder 230V AC/110V DC with pots.	01 No.	01 No.
81.	Kitchen Ration	As per Rqmt	As per Rqmt
82.	Cooking toys	01 set	01 set
83.	Steel container for keeping Food,Raw materials.	08 No.	08 No.
84.	Steel Bucket 10 Ltrs capacity	02 No.	02 No.

	<u>CATEGORY NO.10</u>		
	<u>Wooden Packings</u>		
1.	Wooden packing 300x300x25mm	06 No.	06 No.
2.	Wooden packing 300x300x50mm	06 No.	06 No.
3.	Wooden packing 300x300x75mm	06 No.	06 No.
4.	Wooden packing 300x300x100mm	06 No.	06 No.
5.	Wooden packing 300x150x75mm	06 No.	06 No.
6.	Wooden packing 900x300x75mm	06 No.	06 No.
7.	Wooden packing 900x300x50mm	06 No.	06 No.
8.	Wooden packing 900x300x25mm	06 No.	06 No.
9.	Wooden packing 1200x300x50mm	06 No.	06 No.
10.	Wooden wedges	10 No.	10 No.
	Note: all packing must be recessed at the end & bonded with 30x5mm thick MS strip bend		
	<u>CATEGORY NO.11</u>		
	<u>C&W Items</u>		
1.	BP Air hose	06 No.	06 No.
2.	FP Air hose	04 No.	04 No.
3.	MU Washers	12 No.	12 No.
4.	Coupling hooks	02 No.	02 No.
5.	Screw coupling with shackle & pin	03 No.	03 No.
	<u>CATEGORY NO.12</u>		
	<u>Telecommunication Equipments</u>		
1.	Inspection book	01 No.	01 No.
2.	Megaphone transistorized 2 watts to work on 9 volt dry battery cells.	03 No.	03 No.
3.	4 wire emergency portable control telephone set with accessories DTL 10093	01 Set	01 Set
4.	Hand held walkies talkie sets with battery charger	06 Set	06 Set
5.	Charging facility for lap top, cell phone, camera	01 Unit	01 Unit
6.	Mobile cellular telephone	04 Set	04 Set
7.	VHF set, 25 Watts along with accessories	02 No.	02 No.
8.	Multimeter Digital along With tool kit	01 Unit	01 Unit
9.	Hand held torch of 3 cell complete with dry cell	04 No.	04 No.
10.	Satellite phone	01 No.	01 No.
11.	Wireless PA system	01 Unit	01 Unit
12.	Light weight synthetic pre-fabricated water proof tent for Telecom equipments.	01 No.	01 No.
	<u>CATEGORY NO.13</u>		
	<u>Fire Fighting Equipments</u>		
1.	Dry chemical powder type fire extinguisher 5 Kg Cap.	12 No.	12 No.
2.	Spare Re-fill powder for DCP fire extinguisher (1 pkt of 5 Kg cap.)	04 Pkts	04 Pkts
3.	Spare cartridge for DCP type fire extinguisher	04 No.	04 No.
4.	Water missed type fire extinguisher	02 No.	02 No.
5.	Automatic fire ball	06 No.	06 No.

	<u>CATEGORY No.14</u>		
	<u>Books& Manuals</u>		
1.	Accident Manual	01 No.	01 No.
2.	G&SR Rule book	01 No.	01 No.
3.	Conference rule Part III&IV for TXR staff	01 No.	01 No.
4.	Safety first instruction book	01 No.	01 No.
5.	Working time table	01 No.	01 No.
6.	SPART Log book	01 No.	01 No.
7.	Attendance register	01 No.	01 No.
8.	Equipment register	01 No.	01 No.
9.	Dead stock register	01 No.	01 No.
10.	Equipment testing register	01 No.	01 No.
11.	Register for the periodical schedules of SPART equipment	01 No.	01 No.
12.	Maintenance manual of the equipment	01 No.	01 No.
13.	SPART Inspection Register	01 No.	01 No.
14.	Inspection Schedule board (White writing board)	01 No.	01 No.
15.	Transpotation manual	01 No.	01 No.
16.	First aid Manual	01 No.	01 No.
17.	Copy of the high level committee report on Disaster Management	01 No.	01 No.
18.	Manual on rescue, relief and restoration management	01 No.	01 No.
19.	Medical Manual	01 No.	01 No. Medical Van
20.	SPART Main engine parts catalogue manual	01 No.	01 No.
21.	Main Engine Maintenance Manuals (Electical& Mechanical)	01 No.	01 No.
	<u>CATEGORY No.15</u>		
	<u>Other Items</u>		
1.	Details of local resources like local doctors, Hospitals, Nurshighomes, official of civil administration, defence establishment, paramilitary establishment, boat men, Road cranes/Bulldozers, Fire bridged stations, Road transport depot etc.	01 Unit	01 Unit
2.	List of nominated staff for SPART	01 Unit	01 Unit
3.	Duty list of all SPART staff and supervisor for extricating injured as well as dead.	01 Unit	01 Unit
4.	AMC's for critical equipments with record of periodicity	01 Unit	01 Unit
	<u>CATEGORY No.16</u>		
	<u>MISCELLANEOUS GROUP</u>		
1.	One digital still camera with multimedia storage card with connecting cord and required peripherals.	01 No.	01 No.
2.	Plastic moulded chairs (stackable)	10 Nos.	10 Nos.
3.	Garden Umbrella	01 No.	01 No.
4.	Light weight tent pre fabricated Water proof for ART equipments& Crane equipments	01 No.	01 No.
5.	Charging 56uxiliary56 tor Lap Top computer/ Cell phone & Camera	As per requirement	As per requirement
6.	Almirah with safe locker tor keeping valuable items and Imprest	02 Nos.	02 Nos.
7.	Digital Breath Analyser	01 No.	01 No. Medical van
8.	Safety Cone	06 Nos.	06 Nos.
9.	Safe steel cash box for Imprest money	01 No.	01 No.
10.	Life Jackets (Water Rescue)	10 Nos.	10 Nos.
11.	Scene tape	02 Rolls	02 Rolls

ARME/KSJ EQUIPMENTS & TOOLS

MISCELLANEOUS TOOLS AND EQUIPMENTS OF ARME (AS ON 23.12.2020)			
Sr.No	Description	Quantity Recommended	Quantity Available
1	Emergency inflatable lighting tower	2 Sets.	3 Sets.
2	Generator set kerosene driven 1.5v KVA 230 volts	2 Sets.	2 Sets.
3	Complete luminaire fitting with 500W halogen lamps and control gear	2 Sets.	2 Sets.
4	Complete luminaire fitting with 250W metal halide lamps and control gear	2 Sets.	2 Sets.
5	Telescopic stand 3 mtr high for mounting luminaire for halogen metal halide	5 sets.	5 sets.
6	Pvc insulated and pvc sheathed 3 core flexible cable 23/0-193 mm 15 mm long with 15 weatherproof ic socket	10 nos.	10 nos.
7	PVC insulated and PVC sheathed 3 core flexible cable 23/0-0-193 mm of PVC sheathed 3 core flexible cable 23/193 m	200 mtrs.	200 mtrs.
8	Kerosene oil	100 ltrs.	100 ltrs.
9	Diesel oil	50 ltr.	50 ltr.
10	Polythene container 20 liters capacity for handling kerosene & pouring into 57 auxiliary tanks of engines	2 nos.	2 nos.
11	Lubricating oil	5 ltrs.	5 ltrs.
12	Oil measuring cane	1 ltrs.	1 ltrs.
13	Insulating tape PVC in rolls of 10 mtrs	4 nos.	4 nos.
14	Earthing rod for earthing the O.H.E. for BG electrified section	2 nos.	2 nos.
15	Portable switch board with waterproof socket each capable of taking 500 w load 2 socket of 5 amps and 2 combination socket of 5/15 amps.)	2 sets.	2 sets.
16	Drum on fixed stand for main cable	01 nos.	01 nos.
17	Battery charger 230V AC/110V DC 60 amp for BG/Battery charger 230V AC/30V DC amp for MG	01nos.	01 nos.
18	Telescope ladder 20/30 feet long	02 nos.	02 nos.
19	Fire extinguisher(DCP)	04 nos.	04 nos.
20	Oxy Acetylene set complete with 06V oxygen and DA gas cylinders and regulator, cutter, gloves and goggles	01 nos.	01 nos.
21	Hydraulic jacks 30 tons capacity pumping unit integral with jack 11" closed height, 06" lift	2x30T & 2x10 T	2x30T & 2x10 T
22	Chain pulley block 3 tons capacity	02 nos.	3x3 T+.50 T
23	Rope manila 1" dia.	50Ft.	50Ft.

24	Rope manila 1-1/2"Dia.	50Ft.	50Ft.
25	Tommey bars	06 nos.	06 nos.
26	Axe falling	06 nos.	06 nos.

STANDARD LIST FOR ART/KSJ

Sl. No.	Description	A-Class	(Available)
I-	Generator& Electrical Equipments		
1-	Diesel generating set of 15 K V A capacity 230 V*	1 Set	1 Set
2-	Emergency Inflatable lighting tower	4 Set	4 Set
3-	Generator set kerosene driven 1.5 K V A 230 V	7 Sets	8 Set
4-	Complete luminaire fitting with 500 W halogen lamp and control gear	6 Set	10 Set
5-	Complete luminaire fitting with 250 W halide lamp and control gear	7 Set	13 Set
6-	Telescopic stand 2 mtrs high for mounting luminaire for halogen/metal halide fitting.	12 Sets	12+19 Set
7-	PVC insulated and PVC sheathed 3 core flexible cable 23/0-193 mm 15m long with 15 weather proof IC pins for weather proof IC Sicket.	20 nos.	28 Nos
8-	PVC insulated and PVC sheathed 3 core flexible cable 23/0-193 mm	500 mtrs.	620 mtrs.
9-	Kerosene oil in 200 literdurm.	400 liters.	648 liters
10-	Diesel oil in 200 literdurm.	200 liter	340 Liters
11-	20 liter containers for kerosens.	4 nos.	4 Nos.
12-	Lubricating oil.	20 Liters	340 Liters
13-	Oil measuring cal I liter capacity	2 nos.	2 Nos.
14-	Insulating tape PVC in rolls of 10 mtrs.	6 nos.	6Nos
15-	Earthing rod for OHE (FOR Electrified section)	2 nos.	2 Nos
16-	Portable switch board with water proof sockets each capable of taking 500 Watt load (2 sockets of 5 amps. And 2 combination sockets of 5/15 amps.)	4 Sets	8 Sets
17-	Drum on fixed stand for main cable.	2 nos.	2 Nos
18-	Battery charger 230 V AC/100V DC 6 amp for BG/Battery charger 230V AC/30V DC 30 amp for MG.	2 nos.	1 No
II	II lamination other then electrical		
1-	Petromaxes (LED)	8 nos.	8 nos.
2-	Flame proof troches (3 cells with cells)	12 nos.	12 nos.
3-	Spare torch bulbs (4.5V)	2 nos.	12 nos.
	Oxy cutting Equipment		
1-	Cutting torch with hoses nozzle sets and accessories	2 Sets	2 Sets
2-	Parallel cutting nozzle similar to cutogen cutler type 5 No. 57/11838	1 No.	1 No.
3-	Pressure Gauge Oxygen (Dobule type)	2 nos.	4 Nos
4-	Pressure Gauge Acetylene (Dobule type)	2 nos.	4 Nos
5-	Acetylene cylinder 150 Cu. Ft.	2 nos.	2 Nos
6-	Oxygen cylinder 150 Cu. Ft	4 nos.	6 Nos
7-	Goggles	3 nos.	3 Nos
8-	Gloves and leg guards – leather	2 pairs	2 pairs
9-	Tool sets for maintenance	1 No.	1 No
10-	Oxy fuel cutting equipment sets At MUV	-	-
IV-	Hydraulic Re – railing Equipment		
1-	Hydraulic Re – railing Eguipment (in set)	1 set	1 set
V-	Jacks		
1-	Geared screw jack similar to duff. Norton No. 3261	2 nos.	2 Nos.35 T

	BB,50 tons, close height 26", lift 14.5" (hydraulic jack of same capacity can be used in place of geared screw jacks.)		
	Traversing base 50 tons capacity 26" travel similar to Duff. Norton No. SK 1028 complete with four ratchets. (Traversing arrangements for hydraulic jacks can be used if hydraulic jacks are kept.)	2 nos.	2 Nos.35 T
VI-	Ropes & winches		
1-	Wire rope 5.1/2"Cir. (1-1/4" dia) length 20' #	2 nos.	7/8 inch,5/8 inch chain dia available as per requirement
2-	Wire rope 3.1/2"Cir. (1-1/8" dia) length 50' ##	2 nos.	
3-	Shackles harp type 20 tons capacity ###	2 nos.	02
4-	Dead links (two links of chains) 20 tons capacity ####	2 nos.	
5-	Clamp double thread 7/8" rope	8 nos.	08
VII-	Chains sling + crane accessories for break down crane		
1-	Wire rope sling – single – 14' long 60 tons SWL with thimble and hook	4 nos.	Available with Crane as per requirement
2-	Wire rope sling – single – 14' long 60 tons SWL with thimble and hook	4 nos.	
VIII-	Other mechanical Equipment		
1-	Seized Roller Bearing Gadegt	1 No.	1 No.
2-	Rail claws for maintaining gauge (when tie – bard are broken)	6 nos.	6 No.
IX-	Fitter' Tools		
1-	Bench Vice 6"	1 No.	2 Nos
2-	Block differential pulley with chain 3 tons capacity	1 no	1No.
3-	Bars crow clawed steel 1 – 1/2" dia 6'long	1 no	1No.
4-	Bars crow clawed steel 1 – 1/2" dia 4' 6'long	2 nos.	2Nos.
5-	Bars Tommy	6 nos.	6 Nos.
6-	Hammers sledge 14 lbs.	2 Nos.	2Nos.
7-	Ball peine hammers 1-1/2 lbs	6nos.	07Nos.
8-	Handles Pipes of sorts for levering spanners	8 nos.	8 Nos.
9-	Pliers	2 nos.	2 Nos
10-	Spanner Box 10 mm to 50 mm	1 set	1 set
11-	Spanner double ended 6mm to 50mm	2 set	2 set
12-	File flat bastard 400m long	2 nos.	2 Nos.
13-	File half round bastard 400mm long	2 nos.	2 Nos.
14-	File triangular	2 nos.	2 Nos.
15-	Hexa frame with blade	2 nos.	2 Nos.
X-	Measuring Instruments.		
1-	Measuring tape 100 ft. Steel (30 meters)	1 no.	1 no.
2-	Feeler gauge	1 no.	1 no.
3-	Wheel Diameter gauge.	1 no.	1 BG
4-	Tyre defect gauge.	1 no.	1 BG
5-	Wheel distance gauge.	1 no.	1 BG
6-	Tread wear Measuring gauge.	1 no.	1 BG
7-	Buffer height gauge.	1 no.	2 nos. 1BG+1CBC

8-	Gauge rail	1Nos.	1 BG
9-	Rail wear gauge	1 no.	1 no.
10-	PWI – Tool Kit	1 no.	1 no.
11-	Buffer projection gauge	01 no	01 no
XI-	Wooden Packing		
1-	2'0"x 10 x1"	20 nos.	20 Nos.
2-	2'0"x 10 x2"	20 nos.	20 Nos.
3-	2'0"x 10 x4"	20 nos.	20 Nos.
4-	2'0"x 10 x12"	10 nos.	10 Nos.
5-	60"x 10 x12"	10 nos.	10 Nos.
XII	Oils and grease		
1-	Petrol	50 ltrs.	50 ltrs.
XIII-	C&W spares Parts		
1-	Air hose BP	6 nos.	6 Nos.
2-	Air hose BP	4 nos.	4 Nos.
3-	MU washer	12 nos.	12 Nos.
4-	Coupling hooks	2 nos.	2 Nos
5-	Couplings screw with shackle and pins	6 nos.	6 Nos
6-	M U Washer	12nos	12nos
7-	Socket coupler for BOX wagon BG	1no.	2 Nos.
XIV-	General Stores		
1-	Plastics moulded chairs	15 nos.	15 Nos.
2-	Plastic moulded table	3 nos.	3 Nos
3-	Tent	1 no.	1 No.
4-	Nylon net for loading	6 nos.	6 Nos
5-	Ladder Aluminum	2 nos.	2 Nos
6-	Rope Manila 3" dia (In ft.)	200 ft.	200 ft.
7-	Umbrellas (hand)	15 nos.	15 Nos.
8-	Rain coat with hood.**	40 nos.	42 Nos.
9-	Funnels for oils	1 no.	1 No.
10-	Funnels for diesel oils	1 no.	1 No.
11-	Oil Feeder	2 nos.	2 Nos.
13-	Lashing chains ½" dia x 15 fit length with 2 ring	2 nos.	2 Nos.
14-	Lashing chains 5/8" x 10 fit length W/O H&R	2 nos.	2 Nos.
15-	Lashing chains 5/8" x 20 fit length W/O H&R	2 nos.	2 Nos.
16-	Lamps hand signal (tricolour)	4 nos.	4 Nos.
17-	Flags hand signal green	4 nos.	4 Nos
18-	Flags hand signal red	4 nos.	4 Nos
19-	Fog signal (Detonators)	20 nos.	20 Nos.
20-	Board last vehicle	2 nos.	2 Nos.
21-	Safety matches	12 nos.	12 Nos.
XV	List of untencils and stores (except rations)		
1-	Tumblers stainless steel	36 nos.	36 Nos.
2-	Tea spoons stainless steel	18nos	18 Nos.
3-	Aluminiumdegchi with cover 16" dia	4 nos.	4 Nos.
4-	Kitchen spoon stainless steel	5 nos.	5 Nos.
5-	Knives cook 8" blade	2 nos.	2 Nos.
6-	Thalli stainless 24" dia	2 nos.	2 Nos.
7-	Thalli stainless 14" dia	36nos.	36 Nos.
8-	Bowls stainless steel 3" dia	72 nos.	72 Nos.
9-	Tea cups and saucers chine	12 nos.	12 Nos
10-	AluminiumDegchi with covers 12" dia	2 nos.	2 Nos.
11-	Iron tawa 10 " dia	1 no.	1 No.

12-	Overhead control alignment chart	1 set.	2 Set
13-	Steel body flask one litre capacity	2 nos.	2 Nos
14-	Curry dish China	2 nos.	2 Nos.
15-	Table forks	6 nos.	6 Nos.
16-	Table knives	6 nos.	6 Nos.
17-	Soup plates	6 nos.	6 Nos.
18-	Rice plate China	2nos.	2 Nos.
19-	Tea pot china	2 nos.	2 Nos.
20-	Dinner plates	6 nos.	6 Nos.
21-	Half plates china	6 nos.	6 Nos
22-	Jug 9(stainless steel)	3 nos.	6 Nos.
23-	Water pots 4 gallons capacity	2 nos.	2 Nos.
24-	Duster	12 nos.	12 Nos.
25-	Pillows	30 nos.	30 Nos
26-	Pillows cover	60 nos.	60 Nos.
27-	Soap toilet	1 no.	1 No.
28-	Towels	6 nos.	6 Nos.
29-	Soap bars	1 no.	1 No.
30-	Frying pan	2 nos.	2 nos.
31-	Blanket	90 nos.	90 Nos.
32-	Bed sheet	60 nos.	80 Nos.
33-	LPG Gas stove with cylinder & regulator	2 nos.	2 nos.
34-	Pressure cooker 10 liters capacity	1nos.	2 nos.
XVI	Fire fighting Equipment		
1-	Water buckets	6 nos.	6 Nos.
2-	DCP type fire extinguisher	6 nos.	6 Nos.
3-	Spare refill bottles	6 nos.	6 Nos.
XVII	Medical Equipment		
1-	First aid boxes	2 nos.	2 Nos.
2-	Stretcher with blanket and canvas bag	2 nos.	2 Nos.
XVII	Signaling And telecommunication Equipment		
(A)	General (common for RE ad well as non RE areas)		
1-	Inspection book	1 no.	1 no.
2(a)	Magneto telephone	4 no.	4 Nos.
2(b)	Dry cell large 'D' 1.5 volts each for magneto phones	12 nos.	12 Nos.
3-	PVC insulated , PVC sheathed twin core cable	500 mtrs	500mtrs
4-	Microphone for cordless PA system	2 nos.	2 Nos.
5-	Loud speaker horn type 5/10 watts	2 nos.	2 Nos.
6(a)	Amplifier of minimum 20 watts power output (having interface for card less microphone) operating on DC	2 nos.	2 Nos.
6(b)	12 volts storage battery for 6(a) along with appropriate	2 sets.	2 sets
7-	Megaphone transistorized (minimum 10watts each)	3 nos.	3 Nos.
8-	Portable stand for loud speaker with adjustable ht. From 1.5 M to 3 M	2 nos.	2 Nos.
9-	Field service telephone cable PVC insulated (D-8) 500 meters of each drum.	4 drums	4 drums
10-	Push button auto telephone with tone / pulse switching facility	2 nos.	2 Nos.
11(a)	Walkie-talkies sets (2/5 watts-VHF) with 100% spare batteries	30 nos.	30 Nos.
11(b)	Battery charger for 12(a) (two position charger with rapid charging)	100%	100%
12-	Multimeter-MOTWANI (Magor) modal or equipment	1	1 no.
13-	Extension board for power supply	4	4 Nos.
14-	Jointing kit & material for cables and overhead wires	1 set .	1 set.

(C)	Specific Equipment required for ARTs having beats in RE areas		
1-	4 wire emergency portable control Telephone with dry cell	2 sets.	2 Sets
2-	Tapping transformer (1120:1120)	2 nos. Each	NIL
3-	Terminating transformer (1120:470)	2 nos.	2 Nos.
XIX	BOOKS AND MANUALS		
1-	Transportation manuals	1 nos.	1 nos.
2-	Accident manuals	1 nos.	1 nos.
3-	G&S.R. Rule book	1 nos.	1 nos.
4-	First Aid Manuals	1 nos.	1 nos.
5-	Conference rules part – III and IV for TXRs	1 nos.	1 nos.
6-	Safety first instruction book	1 nos.	1 nos.
7-	Rules for working of cranes	1 nos.	1 nos.
8-	Working time table	1 nos.	1 nos.
XX	RECORDS		
1-	Accident relief train log book	1 nos.	1 nos.
2-	Attendance register	1 nos.	1 nos.
3-	Equipment register	1 nos.	1 nos.
4-	Wire rope and chain testing register	1 nos.	1 nos.
5-	Test register for equipment	1 nos.	1 nos.
6-	Inspection register	1 nos.	1 nos.
XXI	MISCELLANEOUS		
1-	Tea dust	01.kg	01.kg
2-	Sugar	10 kg	10 kg
	Coffee	200 gm	200gm
3-	Condensed milk	3 kg	3 kg
4-	Biscuit	5 kg	5 kg
15-	TOOL BOX CONTANING		
(a)	Soldering Iron – 10W/12 volts, 10W/220V & 65 W/220V.	1 no. Each	1 each
(b)	Long Nose Piler-200mm	1 no.	1 no.
(c)	Cutter Diagonal-200mm	1 no.	1 no.
(d)	Box Spanner 6,5.5 & 5mm	1 no.	1 no. Each
(e)	Hammers steel 750 grams	1 no.	1 no.
(f)	Hammers wooden	1 no.	1 no.
(g)	Adjustable Spanner 300mm	1 no.	1 no.
(h)	Screw Driver – 200mm	1 no.	1 no.
(i)	Screw Driver – 250mm	1 no.	1 no.
(j)	Mains tester 230 volts	1 no.	1 no.
(k)	Electrical insulation tape 12mmx 15 meters	1 no.	1 no.
(l)	Resin core	500gm.	500gm
16-	Tape recorder (cassette type) / dieta phone	1 no.	1 no.
17-	Cellular phone	2 nos.	2 Nos.
18-	Satellite phone (set phone – miniature type) which Support video, audio& test futures	1 no.	1 no.
19-	Fax machine(plain type)	1 no.	1 no.
20-	Control way station equipment DTME type 2 wire with Ampli speaker telephone and suitable NI-CD cell	1 no.	1 no.
21-	Auto dialing system from emergency socket (only Way Station Emergency control telephone)	1 no.	1 no
22-	Map showing sections of track where so communication Through cellular phone is possible	1 sets	1 sets
(B)	SPECIFIC EQUIPEMENT REQUIRED FOR ARTs HAVING BEATS IN NON-RE AREAS		

1-	2 wire portable control phone in a suitable box with Dry cells.	2 sets	2 Sets
	ADDITIONAL ITEMS		
1-	Arm Band	40 nos.	45 Nos.
2-	Electric drill 1" dia.	2 nos.	2 Nos.
3-	Rope ladder	1 nos.	2 Nos.
4-	Jacket luminescent	40 nos.	40 Nos.
5-	Cordoning/Caution Tape (in mtr) luminescent	500m	570 m
6-	Electrically operated cutting tools in SPART – MUV & GKP/ART	1 set	1 set
7-	Self contained breathing apparatus	4 nos.	4 nos.
8-	Inflatable air bags (sets)in SPART-MUV & GKP/ART	-	-
9-	Video camera at divisional HQ	1 nos.	NA
10-	Inflatable tents in SPART at MUV	NIL	NA
11-	Mechanical puller TRIFOR	1 no.	2 no.
12-	Portable rail trolley	1 no.	1 no.
13-	Digital camera at divisional HQ	1 nos.	1 no.
14-	Lap Top Computer at divisional HQ	1 nos.	1 no.
15-	Full body harness	2 nos.	2 Nos.
16-	Helmet with welding shield	2 nos.	2 Nos.
17-	Helmet	30 nos.	30 Nos.
18-	Industrial shoes.	30 nos.	40 Nos.
19-	Gum Boots	20 nos.	20 Nos.
20-	25 watt VHF set (HLCDM item)	2 nos.	2 Nos.
	OHE ITEMS		
A	T&P items		
1-	Pull lift 1.5T	1 nos.	NIL
2-	Tirfor 1.6 T	1 nos.	NIL
3-	Tirfor 3 T	1 nos.	NIL
4-	Single sleeve pulley	2 nos	NIL
5-	Double sleeve pulley	1 nos.	NIL
6-	Manila rope	50 M	NIL
B	OHE items		
1-	Catenary splice	04 nos.	NIL
2-	Suspension clamp with nut & bolt	02 nos	NIL
3-	Suspension bkt(std)	03 nos.	NIL
4-	Suspension bkt(large)	02 nos.	NIL
5-	C-clamp(STD)	02 nos.	NIL
6-	c-clamp(large)	02 nos.	NIL
7-	Large BT tube 3.10	01 nos.	NIL
8-	STD.tube 3.10	02 nos.	NIL
9-	AR (1.10 M)	02 nos	NIL
10-	Catenary clip	10 nos	NIL
11-	Catenary dropper clip	50 nos	NIL
12-	Contact dropper clip	20 nos.	NIL
13-	PG 1030	10 nos.	NIL
14-	PG 1041	10 nos.	NIL
15-	Re drum with SS rope(3:1)	01 nos.	NIL
16-	GI nut bolt 16x50x38	25 nos.	NIL
17-	GI nut bolt 20x65 mm	30 nos.	NIL
18-	GI nut bolt 16x360x150mm	25 nos.	NIL
19-	GI nut bolt 16x260x100mm	10 nos.	NIL
20-	Bulldog strap	10 nos.	NIL
21-	T.T sleeve	02 nos.	NIL

22-	STD.steady arm	04 nos.	NIL
23-	Double strap	04 nos.	NIL
24-	BT insulator	03 nos.	01no
25-	ST insulator	03 nos.	01no
26-	9 T insulator	04 nos.	01no
27-	Discharge Rod	02 nos	02 nos
28-	Operating Rod	01 no	01 no
29-	Hand gloves	01 set	01 set

Sub : Diasaster Management Plan Of Divisional Hospital,Izatnagar] N.E.Railway

Defination : Any accident involving more then 75 casualties should term as Disaster.

Action Plan :

Aim : Rescue and arelief operation

First Information Report

- On duty doctor/ staff nurse will note the time of the accident.
- Time of information receive from control.
- Site of accident and extent of casualties.

Duties of Medical Officer at hospital emergency :

- He will inform CMS and other doctors, nursing officer, matron incharge, nursing staff on duty and paramedical staff.
- Inform 108 ambulance services.
- Collect necessary medical team in the hospital.
- Minimum medical team should remain in the hospital, rest of doctors rushed to accident site by available means of transport along with necessary staff and medical equipments.

Formation of Medical Team :

Team A & Team B : Two teams of doctors and para medical staff.

Team A : Headed by CMS will rush to the accident site immediately with doctors and paramedical staff by first available means of transport.

- Taking out injured passengers from accident involved coaches.
- Attending to injured passengers and giving them first aid.
- Prepare list of injured patients.
- Transporing them to hospital and getting them admitted.
- Dealing with dead bodies with care and respect.
- Prevention of dead bodies.
- Classification of their injuries.
- Post admittance hospital care.

Team –B

- They will establish emergency cell in casualty unit.
- It will be headed by senior most doctor who will stay at hospital.
- Contact local hospitals(Govt./private) near the accident site and ask them to help and ready to receive and provide medical treatment to injured .
- Prepared railway hospital to receive and provide treatment to injured patients.

Mode of transport: aim to reach the site by faster mode of transport

- ARMV/ART with the order of chief controller within 15 minutes by day and 30 minutes by night after siren.
- Railway vehicle and ambulance .
- Hired vehicle if required.

Progress of rescue and relief operation:

Chief Medical suptd.will inform the progress of rescue and relief operation to DRM and CMD. A daily progress reporty will be sent to CMD and SrDSO. He will decide the round the clock roster of 12 hrs, shift of doctors and paramedical and supervisors.
