BRIDGE CIRCULAR NO. 3 OF 1988.

Proper Bridges maintenance is of paramount importance. The quality of maintenance should be good and system of monitoring effective.

Procedure as indicated in the flow chart will be followed for monitoring compliance of inspection notes recorded in the Bridge Registers.

(This is based on Para 1003 of IRW&W Manual)

AEN inspects bridges by 31 DEC as per para 1003(f) of IRW&W Manual, extracts his inspection notes on the format given overleaf and orders PWI/BRI/IOW for compliance.
2. Also sends compliance status every month to his Sr./DEN.

Bridge Registers sent to Sr./DEN by AEN by 15 JAN. with copy of instructions issued to PWI/IOW/BRI.

Sr./DEN scrutinises the register and inspects bridges referred to him + all Important bridges.

OS(Works) takes out extracts of Sr./DENs inspection notes & sends for compliance to IOW/PWI/BRI on the format given overleaf, in 4 copies.

OS(Works) monitors compliance of inspection notes of AEN & Sr./DEN and puts up status to Sectional Sr./DEN every month. He will remind AENs if compliance status is not received.

Sr./DENs also to monitor compliance & carry status of compliance on GM's inspection and inspection of HODs/DRM, apart from checking quality of work at site.

Ans. Singh
Chief Engineer
